

Certificate of Achievement

This acknowledges that

Baby Jay Hawk

has successfully completed the *APhA Pharmacy-Based Immunization Delivery* certificate training program focusing on the knowledge and skills associated with vaccine information and administration. The training associated with this APhA Certificate of Achievement is based on current immunization standards and recommendations at the time of training. It is the responsibility of the immunizer to engage in continuing professional development and education to meet the immunization standards and practice expectations set forth by the immunizer's state board of pharmacy and/or the policies and procedures of the organization that employs the immunizer. This Certificate of Achievement does not expire, but in accordance with existing immunization standards, immunizers should maintain and have accessible proof of current continuing professional development in the area of immunizations and a certification in Cardiopulmonary Resuscitation (CPR) or Basic Cardiac Life Support (BCLS).
