

68-7-23. Dispensing and administration of emergency opioid antagonist without a prescription. (a) Any pharmacist may dispense an emergency opioid antagonist and the necessary medical supplies needed to administer an emergency opioid antagonist to a patient, bystander, first responder agency, or school nurse without a prescription, in accordance with the opioid antagonist protocol and this regulation.

(b) Each pharmacist dispensing an emergency opioid antagonist pursuant to this regulation shall submit to the board a form provided by the board, within five days of signing the opioid antagonist protocol, and shall maintain a signed and dated copy of the opioid antagonist protocol, which shall be made available to the pharmacist-in-charge, the board, and the board's designee. Each pharmacist that no longer dispenses emergency opioid antagonists pursuant to the opioid antagonist protocol shall notify the board, in writing, within 30 days of discontinuation.

(c) Each emergency opioid antagonist dispensed by a pharmacist shall be labeled in accordance with the pharmacy practice act and any implementing regulations.

(d) Each pharmacist who dispenses an emergency opioid antagonist pursuant to this regulation shall perform the following:

(1) For each patient, bystander, first responder agency, or school nurse to whom the emergency opioid antagonist is dispensed, instruct that person or entity to summon emergency medical services as soon as practicable either before or after administering the emergency opioid antagonist;

(2) for each patient or bystander to whom the emergency opioid antagonist is dispensed, provide in-person counseling, training, and written educational materials appropriate to the dosage form dispensed, including the following:

(2) for each patient or bystander to whom the emergency opioid antagonist is dispensed, provide in-person counseling, training, and written educational materials appropriate to the dosage form dispensed, including the following:

- (A) Risk factors of opioid overdose;
- (B) strategies to prevent opioid overdose;
- (C) signs of opioid overdose;
- (D) steps in responding to an overdose;
- (E) information on emergency opioid antagonists;
- (F) procedures for administering an emergency opioid antagonist;
- (G) proper storage, disposal, and expiration date of the emergency opioid antagonist

dispensed; and

- (H) information on where to obtain a referral for substance use disorder treatment; and

(3) for each first responder agency or school nurse to whom the emergency opioid antagonist is dispensed, provide that person or entity with written education and training materials that meet the requirements of paragraphs (d)(1) and (2) and include the requirements to keep inventory records and report any administration of the emergency opioid antagonist to the appropriate healthcare provider pursuant to this regulation.

(e) Each pharmacist shall document the dispensing of any emergency opioid antagonist pursuant to this regulation in a written or electronic prescription record for the patient, bystander, first responder agency, or school nurse to whom the emergency opioid antagonist is dispensed. The pharmacist shall record as the prescriber either that pharmacist or the physician who has signed the opioid antagonist protocol. The prescription record shall be maintained so that the

required information is readily retrievable during the pharmacy's normal operating hours and shall be securely stored within the pharmacy for at least five years.

(f) Any of the following individuals or facilities licensed or registered with the board of pharmacy or the board of healing arts may sell emergency opioid antagonists at wholesale to a first responder agency or school nurse:

- (1) A pharmacist;
- (2) a physician medical director; or
- (3) a pharmacy.

(g) Each first responder, scientist, and technician operating under a first responder agency administering an emergency opioid antagonist shall perform the following:

(1) Summon emergency medical services as soon as practicable either before or after administering the emergency opioid antagonist;

(2) immediately provide information related to the administration to any responding emergency medical services personnel, any emergency room personnel, or any treating physician; and

(3) notify the physician medical director for the first responder agency within 24 hours of administration.

(h) Each first responder agency that is dispensed an emergency opioid antagonist shall ensure that any first responder, scientist, or technician operating under the first responder agency is appropriately trained on the use of emergency opioid antagonists and meets the training requirements in subsection (d) and the opioid antagonist protocol. (Authorized by and implementing 2017 HB 2217, sec. 1; effective, T-_____, _____; effective P-_____.)
