III. Overdose Risk Score

Appriss Health provides an Overdose risk Score for each patient in K-TRACS. In a recent presentation at the Rx Summit, Brad Bauer noted that only 1% of the population had an overdose risk score of over 650. The Committee was interested in learning where the rest of the population scores ranked. Per Appriss the break down is:

010 – 200: 75% of the population

201 – 650: 24% of the population

> 650: 1% of the population

IV. K-TRACS Funding and Legislative Updates

Ms. Blasi provided the Advisory Committee with an update regarding legislative items and a K-TRACS funding update.

Currently K-TRACS has solid funding through fiscal year 2021, which ends on July 1, 2021. Ms. Blasi and Ms. Donnelly will coordinate a meeting between the Board of Pharmacy staff, other fee funded agencies and other key stakeholders to discuss a more permanent K_TRACS funding solution. Currently K-TRACS does receive funding from 2 federal grants and the K-TRACS staff have applied for additional funding due to start October 2020. It is anticipated we will hear if the application was successful in September 2020.

The Discussion: 2020 Legislative session was cut short due to COVID-19. It is not anticipated that any new legislation related to K-TRACS will be passed this in FY 2020. The legislation will be reintroduced in FY 2021.

Dr. Templeton moved the committee recess into executive session to:

- Review or discuss matters, including private health information, for the purpose of reviewing and analyzing K-TRACS data for the purpose of identifying patterns and activity of concern under the authority of KSA 75-4319(b)(5) and 65-1685(d) and will resume the open meeting at 12:30pm.
