

**68-5-16. Ratio of pharmacy technicians to pharmacists.** ~~(a) Except as otherwise provided in this regulation, the ratio of pharmacy technicians to pharmacists in the prescription area of any pharmacy shall not exceed two to one.~~

~~(b) The ratio of pharmacy technicians to pharmacists in the prescription area of any pharmacy may be three to one if at least two of the pharmacy technicians have a current certification issued by the pharmacy technician certification board or a current certification issued by any other pharmacy technician certification organization approved by the board. Any pharmacy technician certification organization may be approved by the board if the board determines that the organization has a standard for pharmacy technician certification and recertification not below that of the pharmacy technician certification board shall comply with the following requirements:~~

(a) If none of the pharmacy technicians have passed a certification examination approved by K.A.R. 68-5-17, the ratio shall not exceed two to one; and

(b) the ratio shall not exceed six to one provided at least half of the pharmacy technicians have passed a certification examination approved by K.A.R. 68-5-17. (Authorized by and implementing K.S.A. 2005 2018 Supp. 65-1663, as amended by L. 2006, ch. 40, sec. 1; effective, T-68-8-22-05, Aug. 22, 2005; effective May 26, 2006; amended April 27, 2007; amended P-\_\_\_\_\_.)
