INFORMATION WHICH EVIDENCES THAT  
THE REGISTRATION OF JEREMEY CORTEZ AS A PHARMACY TECHNICIAN  
IN THE STATE OF KANSAS SHOULD BE REVOKED.

10. Sometime prior to October 20, 2010, the Director and Manager of the Wesley Medical Center Pharmacy (the "Pharmacy") in Wichita, Kansas determined that drugs classified as controlled substances were missing from several Pyxis Medstation Pockets.

11. The drug of most concern to the Pharmacy was Oxycodone, 5 mg tablets. Oxycodone is a controlled substance used for the treatment of moderate to severe pain.

12. Not only was Oxycodone missing from the Pyxis Medstation Pockets, but other "look-alike" drugs had been used to replace the missing Oxycodone tablets. Some of the replacement drugs were Aspirin 81 mg, glimepiride 1 mg, and clonidine. None of the replacement drugs are used for the treatment of pain.

13. Upon discovering the substitution of non-pain medication for pain medication, the Pharmacy's Director and Manager had every machine compartment containing Oxycodone searched. The search found that several medication packages had been torn or otherwise tampered with. Oxycodone was missing from the packages and non-pain medication had been substituted.

14. An audit of the access logs demonstrated that the Respondent was the only individual who had accessed all of the Pyxis machines which contained tampered Oxycodone packages.

15. On or about October 20, 2010, a specific Pyxis machine (the "Machine") was checked to ensure that Oxycodone packages had not been tampered with. All Oxycodone in the Machine was secure and correctly packaged.

16. The Respondent accessed the Machine.

17. The Machine was checked by a registered nurse and a witness who found torn packages of Oxycodone.

18. Access logs for the Machine confirmed that the only person to have accessed the Machine was Respondent.

19. Respondent was terminated and the Pharmacy filed a DEA 106 form. The Board was notified and the Pharmacy took immediate action to secure its drugs from theft. These action included repositioning video cameras and instructing staff to report any evidence of drug tampering to pharmacy administration at the Pharmacy.

20. Respondent committed unprofessional conduct as defined by K.S.A. § 65-1626(rr)(5) when he obtained unlawful possession of Oxycodone.

21. Respondent committed several additional acts of unprofessional conduct, as defined by K.S.A. § 65-1626(rr)(2), (3) and (7) when he unlawfully substituted non-pain medication for pain medication knowing that the non-pain medication might be given to patients whose pain would not be controlled. All of Respondent's unlawful acts were likely to deceive, defraud or harm the public.

WHEREFORE, pursuant to K.S.A. §§ 65-627, 65-1663(e)(1), 65-1627(a)(3); 65-1626(rr)(2), (3), (5) and (7), 65-1627a and 77-501 et seq., and for the reasons stated above, petition and notice is hereby given of the Board's intent to revoke Respondent's registration as a pharmacy technician in the State of Kansas.

#### RIGHT TO HEARING

Respondent may request a hearing in accordance with the provisions of the KAPA. A written request for a hearing must be filed within fifteen (15) days of service of this petition and notice as prescribed by K.S.A. § 77-542(a). The request must be submitted to the following

person at the address shown. Failure to submit a timely request will result in a waiver of Respondent's right to a hearing, and this petition and notice will become a final order revoking Respondent's registration as a pharmacy technician in the State of Kansas.
