

Check Prescribing History with MyRx

Login to your K-TRACS account. Open the Menu and navigate to MyRx:

Any DEA number listed in your account can be included in the search. Select or deselect the DEA numbers to include, then enter a timeframe. The last 5 years of data is available.

The "My Rx" search form includes a "Prescriptions Written" section with "From*" and "To*" date pickers. Below is a "DEA Numbers" section with two checked checkboxes: AA1111111 and AS1111119.

Depending on the extent of data requested, the report may need time to run. Check the status of the report by clicking on the MyRx History tab. You may need to refresh the page to see the status change.

The "MyRx History" table has columns for Prescriber First Name, Prescriber Last Name, Role, DEA, Date Requested, and Status. A single row is shown with the status "Complete", which is highlighted with a red box. A "View Report" link is visible next to the status.

Prescriber First Name	Prescriber Last Name	Role	DEA	Date Requested	Status
Kansas	Prescriber	Physician (MD, DO)	AA1111111, AS1111119	03/29/2023 12:18 PM	Complete

Once the status is complete, click View Report. The report will show all prescriptions reported to K-TRACS for the DEA numbers listed for the timeframe requested.

If not all your DEA numbers are listed, please contact K-TRACS staff for assistance at pmpadmin@ks.gov or 785.296.6547.
