1 Document Overview

This document serves as a training guide and support manual for dispensers of Schedule II through Schedule IV controlled substances and drugs of concern in or into Kansas who use Bamboo Health's PMP Clearinghouse repository to report their dispensations. It includes such topics as:

- Reporting requirements for dispensers in the State of Kansas
- Data file submission guidelines and methods
- Creating a PMP Clearinghouse account
- Creating a data file
- Uploading or reporting data
- Understanding and correcting errors

This guide is intended for use by all dispensers in or into the State of Kansas required to report the dispensing of reportable drugs.

2 Data Collection and Tracking

2.1 Data Collection Requirements

This guide provides information regarding the State of Kansas prescription drug monitoring program (K-TRACS). The purpose of this program is to collect data on ALL Schedule II, III, and IV controlled substances, as well as drugs of concern dispensed in the State of Kansas or dispensed to an address in the State of Kansas.

K.S.A. 65-1683 requires the Kansas Board of Pharmacy (Board) to establish a Controlled Substances Prescription Electronic Reporting System. The statute requires a dispenser who delivers a controlled substance or drug of concern to report such dispensing to K-TRACS. The goal of developing this electronic system for reporting the dispensing of these prescriptions is to make information from the K-TRACS database available to healthcare professionals who are seeking to improve patient care and patient safety. K.S.A. 65-1685 allows certain individuals access to K-TRACS data for limited purposes. For example, prescribers and dispensers can access the prescription history data to help determine appropriate medical treatment and interventions but only for the purposes of providing medical or pharmaceutical care to a patient. In addition, the data may help identify patients who could benefit from referral to a pain-management specialist or those who are at risk for addiction and may be in need of substance use treatment.

Who is and is not required to report to K-TRACS can be found in the definition of “dispenser” in K.S.A. 65-1682 (b). “Dispenser” means a practitioner, pharmacy, or pharmacist who delivers a scheduled substance or drug of concern to an ultimate user, but does not include:

1. A licensed hospital pharmacy that distributes such substances for the purpose of inpatient hospital care;
2. A medical care facility as defined in K.S.A. 65-425 and amendments thereto, practitioner, or other authorized person who administers such a substance;
3. A registered wholesale distributor of such substances;
4. A veterinarian licensed by the Kansas board of veterinary examiners who dispenses or prescribes a scheduled substance or drug of concern;
5. A practitioner who has been exempted from the reporting requirements of this act in rules and regulations promulgated by the Board.

Entities exempted by regulation from reporting to K-TRACS are found in K.A.R. 68-21-2:

- If any medical care facility provides an interim supply of a reportable drug to an outpatient on an emergency basis when a prescription cannot be filled as authorized by K.A.R. 68-7-11, that facility shall be exempt from the reporting requirements. The interim quantity shall not exceed a 48-hour supply and, as described in K.A.R. 68-7-11(d) (2) (B), shall be limited to an amount sufficient to supply the outpatient's needs until a prescription can be filled. This exemption only applies to the outpatient emergency interim supply of drugs and not to other outpatient dispensing or supply activities of the medical care facility.
- If the dispenser does not monthly dispense more than 10 prescriptions for reportable drugs in Kansas or to an address in Kansas and is unable to automate submission of zero reports, a request for exemption from zero report requirements only may be submitted.
- If the dispenser does not dispense reportable drugs in Kansas or to an address in Kansas, a request for exemption from all reporting requirements may be submitted.

All requests for exemption must be completed online by pharmacists in charge (PICs) at <https://controlled-substance-reporting-waiver.pmpaware.net/kansas/waiver/index>. Dispensers must continue reporting until their exemption has been processed by K-TRACS staff. All exemptions must be renewed annually during the month of August.

If an exempt dispenser at any time decides to start dispensing reportable drugs in the state, the dispenser must notify the Board immediately and begin reporting to K-TRACS within 7 days.

A dispenser who knowingly fails to submit prescription monitoring information to K-TRACS as required by this act or knowingly submits incorrect prescription monitoring information shall be guilty of a severity level 10, nonperson felony.

If a dispenser usually dispenses reportable drugs in Kansas but has no dispensations to report, the dispenser must report this information to the Kansas State Board of Pharmacy by filing a Zero Report as described in the [Reporting Zero Dispensing](#) section of this guide. Zero reports must be filed by the end of the next business day.

2.2 Reporting Requirements

All dispensers of reportable drugs are required to collect and report prescription information. Except in instances of exemption, each dispenser shall file a report with the board for each reportable drug sold in Kansas or to an address in Kansas. This report shall be submitted by the end of the next business day from the day the drug is sold. (K.A.R. 68-21-2)

If you are a chain pharmacy, your data will likely be submitted from your home office. Please verify this with your home office. If you are an independent pharmacy or other entity, please forward the reporting requirements to your software vendor. They will need to create the data file, and they may be able to submit the data on your behalf. If not, follow the instructions provided in the [Data Submission](#) chapter of this document to submit the data.

Reportable “drugs of concern” are identified in K.A.R. 68-21-7 and include the following:

- Any product that contains all three of the following drugs: butalbital, acetaminophen, and caffeine
- Any compound, mixture, or preparation that contains any detectable quantity of ephedrine, its salts or optical isomers, or salts of optical isomers and is exempt from being reported to the statewide electronic logging system for the sale of methamphetamine precursors
- Any compound, mixture, or preparation that contains any detectable quantity of pseudoephedrine, its salts or optical isomers, or salts of optical isomers and is exempt from being reported to the statewide electronic logging system for the sale of methamphetamine precursors
- Promethazine with codeine
- Gabapentin

Note: Additions or deletions from the reportable “Drugs of Concern” list may happen periodically. These changes must go through the regulatory process in order to be added or deleted from this list. You will be notified of any changes that are made in the future.

3 Accessing Clearinghouse

This chapter describes how to create your PMP Clearinghouse account and how to log in to the PMP Clearinghouse web portal.

3.1 Creating Your Account

Prior to submitting data, you must create an account. **If you are currently registered with the Bamboo Health PMP Clearinghouse system, you *do not* need to register for a new account—you will be able to add Kansas to your existing account for data submissions.** If you have an existing PMP Clearinghouse account, please refer to [Adding PMPs to Your Upload Account](#) to add PMPs to your account.

Notes:

- *Data from multiple pharmacies can be uploaded in the same file. For example, chain pharmacies may send in one file containing controlled substance dispensing information for all their pharmacies licensed in the State of Kansas. Therefore, chains with multiple stores need only to set up one account to upload a file.*
- *PMP Clearinghouse allows users to submit data through the web portal via manual entry (UCF) or upload of ASAP files. For users who prefer an encrypted transfer method, SFTP access is also available. You may set up your SFTP account during the account creation process.*
- *If you need to make changes to an existing PMP Clearinghouse upload account, please refer to [Managing Your Upload Account](#).*

Perform the following steps to create an account:

1. Open an internet browser window and navigate to the PMP Clearinghouse Account Registration page located at <https://pmpclearinghouse.net/registrations/new>.

The screenshot shows the 'Account Registration' form. It is divided into three main sections: 'Profile Details', 'Personal Information', and 'Employer Information'. The 'Profile Details' section includes fields for 'Email Address *', 'Password *', and 'Password confirmation *'. The 'Personal Information' section includes fields for 'First name *', 'Middle name', and 'Last name *', along with search fields for 'DEA' and 'NPI'. The 'Employer Information' section is partially visible at the bottom.

2. Complete your Profile Details.

This close-up screenshot focuses on the 'Profile Details' section. It shows the 'Email Address *' field, the 'Password *' field, and the 'Password confirmation *' field. A note at the top right indicates '* Indicates Required Field'.

- a. Enter your current, valid email address in the **Email Address** field.

Note: The email address you provide here will act as your username when logging into the PMP Clearinghouse system.

- b. Enter a password for your account in the **Password** field, then re-enter it in the **Password Confirmation** field. The password requirements are provided below.

Passwords must contain:

- At least eight (8) characters
- One (1) uppercase letter
- One (1) lowercase letter
- One (1) number
- One (1) special character, such as !, @, #, \$, etc.

3. Complete your Personal and Employer information, noting the following:
- Required fields are marked with an asterisk (*).

- You may be able to auto-populate your Personal and/or Employer information by entering your (or your employer's) **DEA**, **NPI**, and/or **NCPDP** number, then clicking the search icon (🔍). If the number you entered is found, your information will automatically be populated.

Personal Information

First name *

NCPDP

- If secure file transfer protocol (SFTP) is required, complete the Data Submission section of the page.

Notes:

- If SFTP access is not required, you do not need to complete the Data Submission section and you may continue to step 5.
- You may add SFTP access to an existing account. Please refer to [Adding SFTP Access to an Upload Account](#) for complete instructions.

Data Submission

PMP Clearinghouse users are able to submit data through the web portal via manual entry or upload of ASAP files. Secure FTP (SFTP) access is available, and Real-Time submissions are also available in select states.

☐ Enable SFTP Access

☐ Enable Real-Time Access

- Click to select the **Enable SFTP Access** checkbox.

The SFTP access fields are displayed.

The screenshot shows a web form titled "Data Submission". At the top, a grey box contains the text: "PMP Clearinghouse users are able to submit data through the web portal via manual entry or upload of ASAP files. Secure FTP (SFTP) access is available, and Real-Time submissions are also available in select states." Below this, there is a checkbox labeled "Enable SFTP Access" which is checked. Underneath are three text input fields: "SFTP Username", "SFTP Password", and "SFTP Password Confirmation". Below the password fields, a small text box states: "Password must include at least 8 characters, including 1 capital letter, 1 lowercase letter, and 1 special character (such as !, @, #, \$)". At the bottom of the form, there is another checkbox labeled "Enable Real-Time Access" which is unchecked.

- b. Your **SFTP Username** is automatically generated using the first five characters of your employer's name + your employer's phone number + @prodpmpsftp. For example, if you entered "Test" as your employer's name and "555-555-5555" as your employer's phone number, your SFTP username would be *test5555555555@prodpmpsftp*.
- c. Enter a password for your SFTP account in the **SFTP Password** field, then re-enter it in the **SFTP Password Confirmation** field. The password requirements are provided below.

Passwords must contain:

- *At least eight (8) characters*
- *One (1) uppercase letter*
- *One (1) lowercase letter*
- *One (1) number*
- *One (1) special character, such as !, @, #, \$, etc.*

This password will be input into the pharmacy software so that submissions can be automated.

Notes:

- *This password can be the same as the one previously entered under Profile.*
- *Unlike the Profile password (i.e., your user account password), the SFTP password does not expire.*
- *The URL to connect via SFTP is submissions.healthcarecoordination.net.*

- Additional details on SFTP configuration can be found in [Appendix C: SFTP Configuration](#).

5. In the Submission Destinations section of the page, select the PMP(s) for which you will be submitting data.

6. Click **Submit**.

The request is submitted to the PMP administrator for each of the PMPs you selected for data submission, and the Registration Information Overview page is displayed.

Thank you for registering with PMP Clearinghouse, a service of PMP AWARe.

A link to verify your email address has been sent. You must confirm your email address before you can login to PMP Clearinghouse. Your data submission request has been sent to your requested state(s) for processing. Upon approval, you may begin submitting prescription data.

4 Data Submission

This chapter provides information and instructions for submitting data to the PMP Clearinghouse repository.

4.1 Timeline and Requirements

- Pharmacies and software vendors can establish submission accounts upon receipt of this guide. See [Creating Your Account](#) for more information.
- You can begin submitting data to PMP Clearinghouse as soon as your account has been created.
- As of November 1, 2023, dispensers are required to report their data by the end of the next business day from the day the drug is sold. Data should be reported in accordance with the guidelines outlined under [Reporting Requirements](#).

4.2 Upload Specifications

As of November 1, 2023, the State of Kansas requires files to be submitted in ASAP 4.2B as defined in [Appendix B: ASAP 4.2B Specifications](#). Files for upload should be named in a unique fashion, with a prefix constructed from the date (YYYYMMDD) and a suffix of ".dat". An example file name would be "20220415.dat". All of your upload files will be kept separate from the files of others.

Reports for multiple pharmacies can be in the same upload file in any order.

Prescription information must be reported by the end of the next business day from the day the prescription is sold, unless an exemption has been obtained from the Kansas State Board of Pharmacy.

5 Data Delivery Methods

This chapter provides information about data delivery methods you can use to upload your controlled substance reporting data file(s) to PMP Clearinghouse.

For quick reference, you may click the desired hyperlink in the following table to view the step-by-step instructions for your chosen data delivery method:

Delivery Method	Page
Secure FTP	12
Web Portal Upload	13
Manual Entry (UCF)	14
Zero Reports	17

5.1 Secure FTP

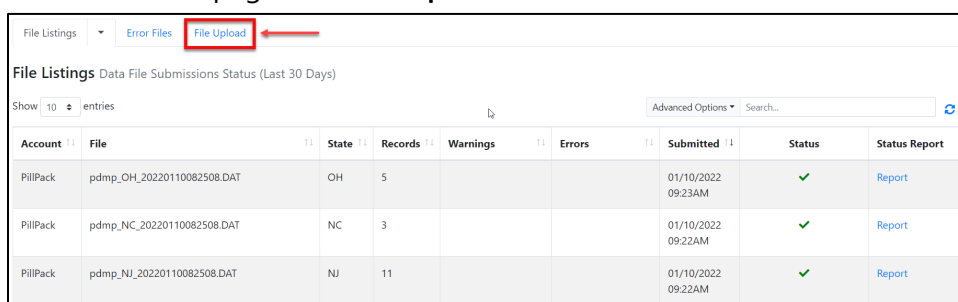

If you are submitting data to PMP Clearinghouse using SFTP, you must configure individual subfolders for the PMP systems to which you are submitting data. These subfolders must be created in the *homedir/directory* folder, which is where you are directed once authenticated, and **should be named using the PMP abbreviation (e.g., DC, GU, KS, MS, PR, etc.)**. Data files not submitted to a PMP subfolder will be required to have a manual PMP assignment made on the [File Listings](#) page. Please refer to [PMP Subfolders](#) for additional details on this process.

1. If you do not have a PMP Clearinghouse account, perform the steps in [Creating Your Account](#).
Or
2. If you have a PMP Clearinghouse account but have not enabled SFTP access, perform the steps in [Adding SFTP Access to an Upload Account](#).
3. Prepare the data file(s) for submission, using the ASAP specifications described in [Appendix B: ASAP 4.2B Specifications](#).
4. SFTP the file to submissions.healthcarecoordination.net.
5. When prompted, enter the username and password you created when setting up the SFTP account.
6. Place the file in the appropriate PMP-abbreviated directory.
7. You can view the results of the transfer/upload on the Submissions page in PMP Clearinghouse.

Note: If you place the data file in the root directory and not a PDMP sub-folder, a  symbol with a mouse over hint of “**Determine PMP**” is displayed on the **File Status** page, and you will be prompted to select a destination PMP to which the data should be sent.

5.2 Web Portal Upload

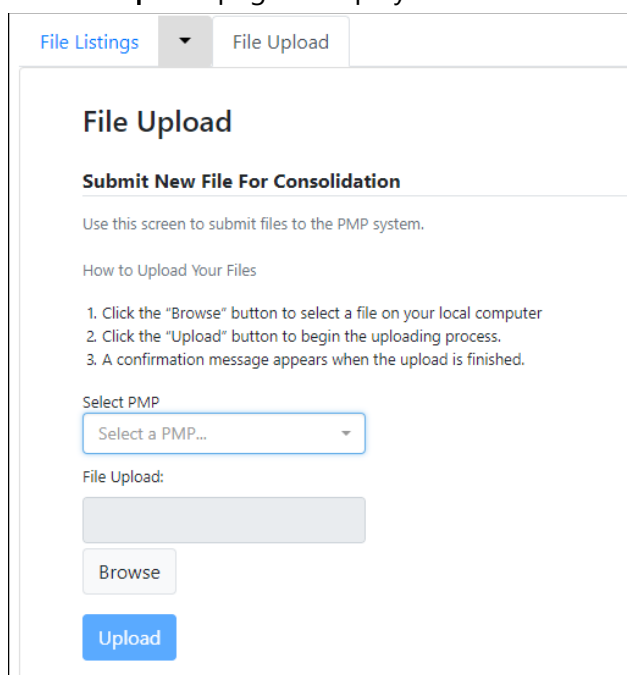

1. If you do not have an account, perform the steps in [Creating Your Account](#).
2. Prepare the data file(s) for submission, using the ASAP specifications described in [Appendix B: 4.2B Specifications](#).
3. [Log in to PMP Clearinghouse](#).
4. From the home page, click **File Upload** tab.

The screenshot shows the 'File Listings' page. At the top, there are three tabs: 'File Listings', 'Error Files', and 'File Upload'. The 'File Upload' tab is highlighted with a red box, and a red arrow points to it from the right. Below the tabs, the page title is 'File Listings Data File Submissions Status (Last 30 Days)'. There is a 'Show 10 entries' dropdown and an 'Advanced Options' search bar. The main content is a table with columns: Account, File, State, Records, Warnings, Errors, Submitted, Status, and Status Report. The table contains three rows of data for PIIPack accounts from Ohio, North Carolina, and New Jersey.

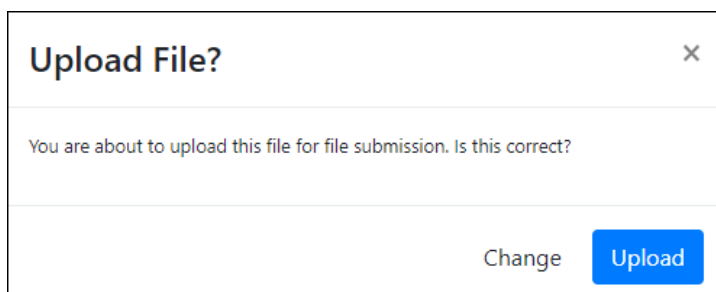

Account	File	State	Records	Warnings	Errors	Submitted	Status	Status Report
PIIPack	pdmp_OH_20220110082508.DAT	OH	5			01/10/2022 09:23AM	✓	Report
PIIPack	pdmp_NC_20220110082508.DAT	NC	3			01/10/2022 09:22AM	✓	Report
PIIPack	pdmp_NJ_20220110082508.DAT	NJ	11			01/10/2022 09:22AM	✓	Report

The **File Upload** page is displayed.

The screenshot shows the 'File Upload' page. At the top, there are two tabs: 'File Listings' and 'File Upload'. The 'File Upload' tab is active. The page title is 'File Upload'. Below the title, there is a section 'Submit New File For Consolidation' with the instruction 'Use this screen to submit files to the PMP system.' and a 'How to Upload Your Files' section with three steps: 1. Click the 'Browse' button to select a file on your local computer. 2. Click the 'Upload' button to begin the uploading process. 3. A confirmation message appears when the upload is finished. Below the instructions, there is a 'Select PMP' dropdown menu with the text 'Select a PMP...'. Below the dropdown, there is a 'File Upload:' label, a large grey rectangular field for the file, a 'Browse' button, and an 'Upload' button.

5. Select the PMP to which you are submitting the file from the drop-down list in the **Select PMP** field.
6. Click the **Browse** button, located next to the **File Upload** field, and select the file you created in step 2.
7. Click **Upload**.
A message is displayed prompting you to confirm the submission.

A modal dialog box titled "Upload File?" with a close button (X) in the top right corner. The main text inside the dialog asks, "You are about to upload this file for file submission. Is this correct?". At the bottom right, there are two buttons: a "Change" button and a blue "Upload" button.

8. Click **Upload** to continue with the file submission.

Your file is uploaded, and you can view the results of the upload on the File Listings page.

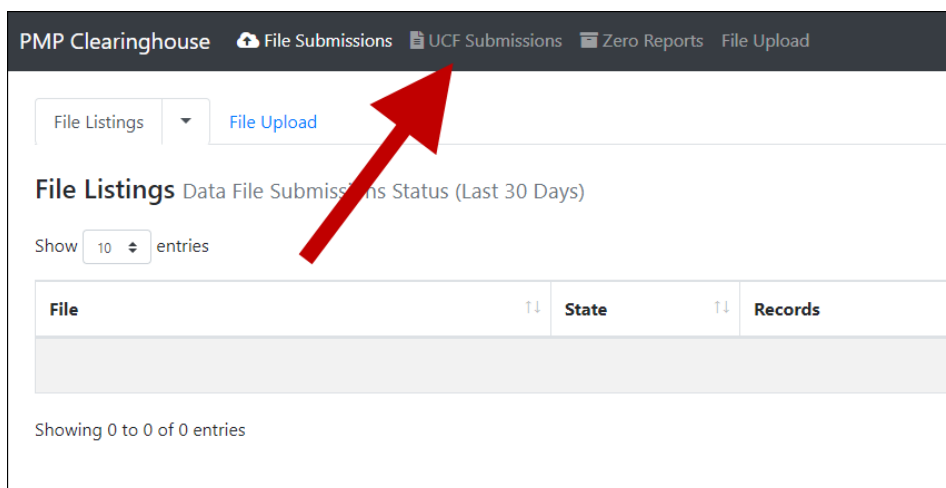

Note: When uploading a file, the file name must be unique. If the file name is not unique, a message is displayed indicating that the file name has already been taken.

5.3 Manual Entry (UCF)

You can manually enter your prescription information into the PMP Clearinghouse system using the Universal Claim Form (UCF) within the PMP Clearinghouse web portal. This form allows you to enter patient, prescriber, dispenser, and prescription information.

Please refer to [Reporting Requirements](#) for the complete list of reporting requirements.

1. If you do not have an account, perform the steps in [Creating Your Account](#).
2. [Log in to PMP Clearinghouse](#).
3. Click **UCF Submissions**.

A screenshot of the PMP Clearinghouse web portal. The top navigation bar includes links for "File Submissions", "UCF Submissions", "Zero Reports", and "File Upload". Below the navigation bar, there is a "File Listings" dropdown menu and a "File Upload" button. A red arrow points from the "File Upload" button to the "UCF Submissions" link in the navigation bar. The main content area is titled "File Listings Data File Submissions Status (Last 30 Days)". It includes a "Show" dropdown set to "10" and the text "entries". Below this is a table with columns for "File", "State", and "Records". The table is currently empty, and the text "Showing 0 to 0 of 0 entries" is displayed at the bottom.

The UCF Listings page is displayed.

5.4 Zero Reports

If you have no dispensations to report for the preceding reporting period, you must report this information to the Kansas State Board of Pharmacy.

You may submit your zero report through the PMP Clearinghouse web portal by following the steps below or via SFTP using the ASAP Standard for Zero Reports.

For additional details on submitting via SFTP, please refer to [Appendix B: ASAP Zero Report Specifications](#).

You may submit zero reports through the PMP Clearinghouse web portal using one of the following methods:

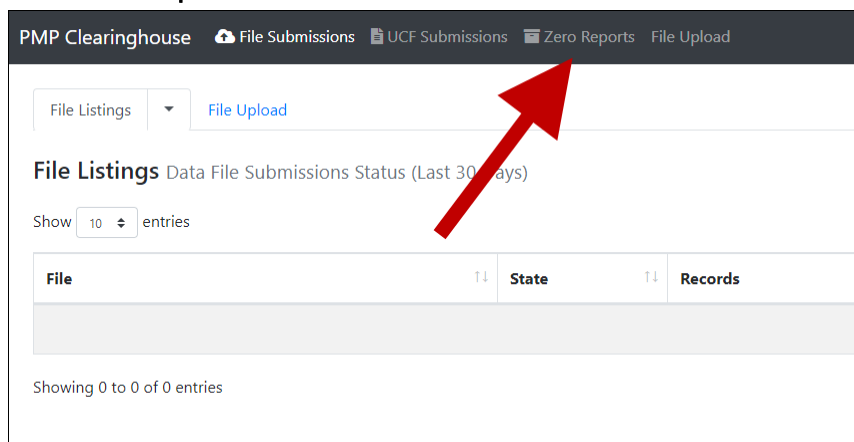

- [Submit a single-click zero report](#)
- [Create a new zero report](#)

5.4.1 Submit a Single-Click Zero Report

Single-click zero reporting allows you to create a profile for the pharmacy that includes its identifiers (e.g., DEA, NPI, NCPDP), so you do not have to enter it each time you submit a zero report.

To create a pharmacy profile and begin submitting single-click zero reports:

1. If you do not have an account, perform the steps in [Creating Your Account](#).
2. [Log in to PMP Clearinghouse](#).
3. Click **Zero Reports**.

The Zero Report Listings page is displayed.

Bamboo Health Dispensary	AL	01/16/2020	01/16/2020	01/16/2020	01/16/2020	01/16/2020	https://bamboohlth.com/pmp-clearinghouse/zero-reports/	01/16/2020 5:04 PM		

4. Click the **Create Zero Report** tab.

The **Create Zero Report** page is displayed.

Note: *Submit a Single Click Zero Report* is selected by default.

- Any pharmacies you have already configured for single-click zero reporting are displayed at the bottom of the page. Continue to [Step 10](#) to submit a zero report for those pharmacies.
 - If you have not configured your pharmacy for single-click zero reporting, continue to [Step 5](#).
5. Click **Add New Pharmacy**.

The **New Pharmacy** page is displayed.

- Select the PMP for which you are submitting a zero report from the drop-down list in the **PMP** field.
- Enter the pharmacy's name in the **Pharmacy** field.
- Populate the **NCPDP**, **DEA Number**, and/or **NPI** fields as required by the PMP you selected in step 6. If any of these fields are required, a red asterisk (*) will be displayed next to that field once you have selected a PMP.
- Click **Save**.

The pharmacy is saved and will be listed under the drop-down for the selected PMP, which is located at the bottom of the page.

Create Zero Report

Submit a Single Click Zero Report

Create new Zero Report

Create Single Click Zero Report

Below are the pharmacies you have configured for single-click reporting. Setting up pharmacies here will allow you to create a profile for the pharmacy that includes its identifiers (e.g. DEA, NPI, NCPDP) so you don't have to enter it each time you submit a zero report.

NOTE: The time frame for "Today" or "Yesterday" is 00:00-23:59:59 and based upon the time zone set for your account profile at the time of submission.

Add New Pharmacy

Pharmacy	NCPDP	DEA Number	NPI	Actions	Submit Zero Reports for:
+ Demo	Pharmacies configured for single-click zero reporting are listed here				
+ Vermont					

- Click the plus sign ("+") next to the PMP for which you wish to submit a zero report.

The list of pharmacies you have configured for single-click zero reporting for that PMP is displayed.

Note: This page allows you to submit a zero report for the current date (**Today**) or the previous day (**Yesterday**).

Pharmacy	License Number	NCPDP	DEA Number	NPI	Actions	Submit Zero Reports for:	
- Demo							
Another Test Pharmacy					Edit Delete	Today 12/22/2021	Yesterday 12/21/2021
Bamboo Health Test Pharmacy					Edit Delete	Today 12/22/2021	Yesterday 12/21/2021

- Click **Today** to submit a zero report for the current date;
- Or
- Click **Yesterday** to submit a zero report for the previous date.

Once the report is submitted, the submission is indicated on the screen, and the zero report is displayed on the **Zero Report Listings** tab.

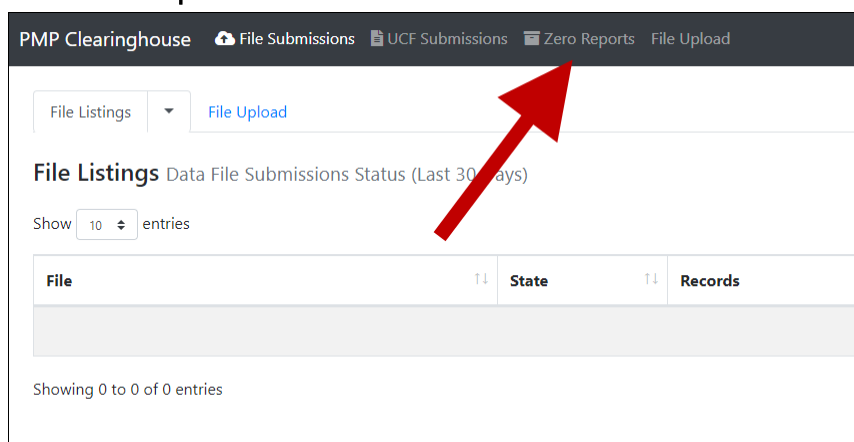

Pharmacy	License Number	NCPDP	DEA Number	NPI	Actions	Submit Zero Reports for:	
- Demo							
Another Test Pharmacy					Edit Delete	Today 12/22/2021	Yesterday 12/21/2021
Bamboo Health Test Pharmacy					Edit Delete	✓ Submitted	Yesterday 12/21/2021

Note: You may edit or delete a pharmacy from this page.

- To edit a pharmacy, click **Edit** to display the Edit Pharmacy page and make any necessary changes. Refer to steps 6–9 for guidance on entering pharmacy information.
- To delete a pharmacy, click **Delete**. You will be prompted to confirm the deletion. Once you confirm the deletion, the pharmacy configuration will be removed.

5.4.2 Create a New Zero Report

1. If you do not have an account, perform the steps in [Creating Your Account](#).
2. [Log in to PMP Clearinghouse](#).
3. Click **Zero Reports**.

The **Zero Report Listings** page is displayed.

5. Click the button to select **Create new Zero Report**.

The **Create Zero Report** page is displayed.

6. Select the PMP for which you are submitting a zero report from the drop-down list in the **PMP** field.
7. Enter the start date and end date for the zero report in the **Start date** and **End date** fields using the *MM/DD/YYYY* format. You may also select the dates from the calendar that is displayed when you click in these fields.

8. Enter your NCPDP, DEA, and/or NPI numbers, if required by your PMP.

Note: If any of these fields are required by your PMP, they will be marked with a red asterisk (*).

9. Click **Submit**.

Your zero report is submitted to PMP Clearinghouse and will be displayed on the **Zero Report Listings** tab.

6 Data Compliance

This chapter describes how to view the status of your submitted data files and how to correct errors.

6.1 File Listings

The File Listings page displays information extracted from the data files submitted to PMP Clearinghouse, including the file name, number of records identified within the data file, number of records that contain warnings, number of records that contain errors, and the date and time of submission. The File Listings page is displayed upon logging in to Clearinghouse; you may also click **File Submissions** from the menu at any time to access this page.

You may sort the File Listings page by account name, file name, PMP, number of records, warning count, error count, and date submitted. You may also click the account name to display the account details.

File Listings ▼ Error Files File Upload

DEMO ACCT	Bad_File_2.dat	DO	0			11/23/2021 02:27PM	⚠	-	
DEMO ACCT	Bad_File.dat	DO	0			11/23/2021 02:26PM	⚠	-	

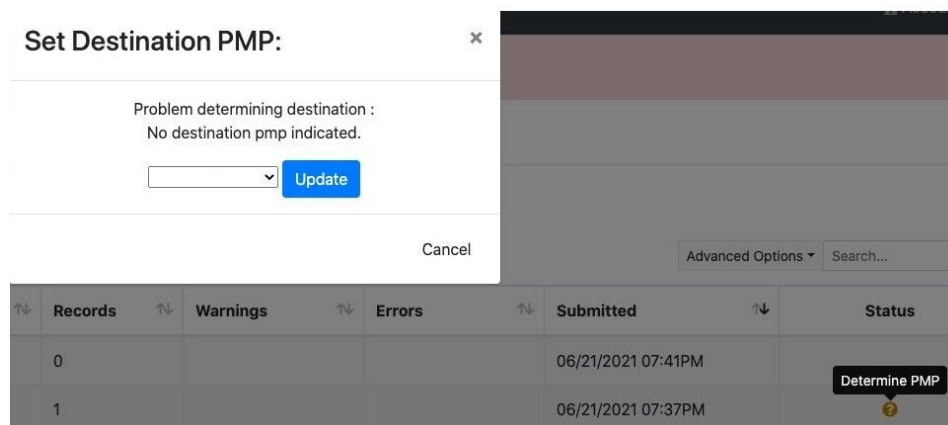

- The **Status** column, located at the end of each row, displays the file status via color-coded icon. Hovering over the icon will display the status message.
- The **Status Report** column, located next to the **Status** column, contains a link to the status report for that file. Please refer to [File Status Report](#) for more information on how to read and interpret this report.

If a file contains errors, it will have a ❗ symbol with a mouse over hint of **"Pending Dispensation Error"** within the status column. You can click the error icon in the **Status** column to display the Error Correction page, which allows you to view the records containing errors (see [View Records](#) for more information). Please refer to [Error Correction](#) for instructions on how to correct errors.

If a file is unable to be parsed into the PMP Clearinghouse application, it will have an ⚠ symbol with a mouse over hint of **"ASAP Errors."** Clicking the icon will

display the detailed error, which indicates what element was missing or malformed. To correct these errors, a new file must be submitted to PMP Clearinghouse. It is not necessary to void a file that failed parsing since it was not successfully submitted to PMP Clearinghouse.

If you submitted a file via SFTP without using a PMP-specific sub-folder, the file will be displayed, and  symbol will be displayed in the status column with a mouse over hint of **"Determine PMP."** Clicking the icon will prompt you to select a destination PMP to which the data file will be transferred.

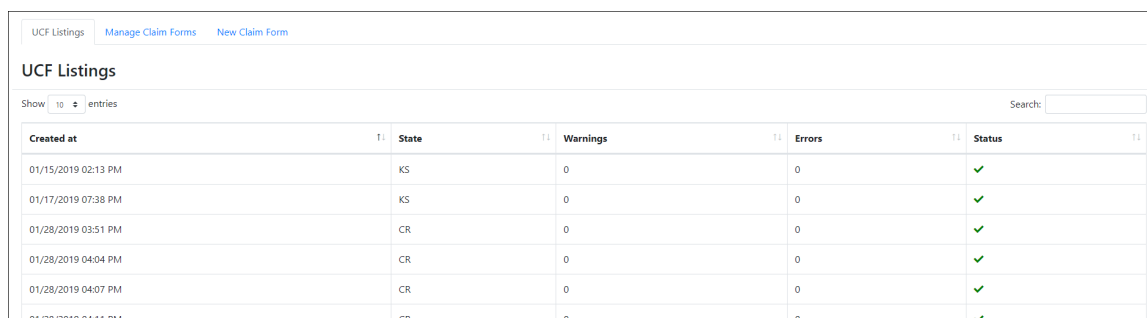

If you submitted a zero report via file upload or SFTP that is malformed or missing information, the file will be displayed, and an exclamation mark icon inside a red triangle will be displayed in the status column. Hovering over the icon will display the "Invalid Zero Report" error. Clicking on the icon will display the detailed error message. To correct these errors, a new zero report must be submitted. Error example:

6.2 UCF Listings

The UCF Listings page displays information about the UCFs submitted to PMP Clearinghouse, including the number of warnings and errors. Click **UCF Submissions** to access this page.

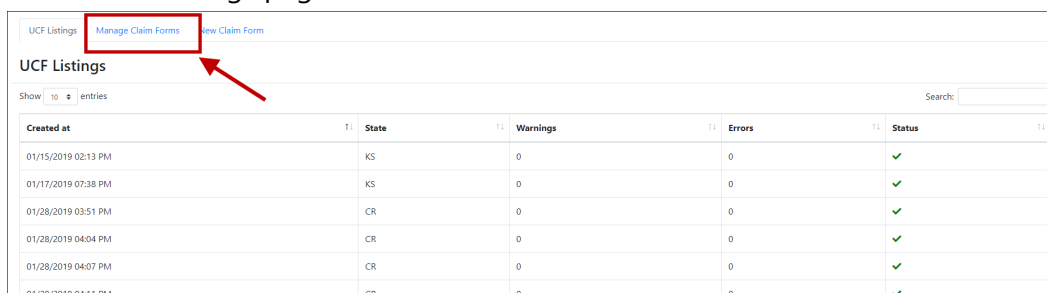

You may sort the UCF Listings page date created, PMP, warning count, error count, and status.

Created at	State	Warnings	Errors	Status
01/15/2019 02:13 PM	KS	0	0	✓
01/17/2019 07:38 PM	KS	0	0	✓
01/28/2019 03:51 PM	CR	0	0	✓
01/28/2019 04:04 PM	CR	0	0	✓
01/28/2019 04:07 PM	CR	0	0	✓

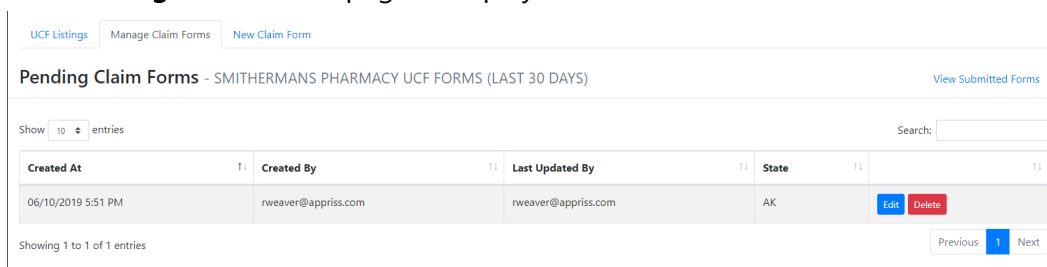

The **Status** column, located at the end of each row, displays the UCF's status. Data entered into the UCF is validated upon submission; therefore, successfully submitted UCFs should not contain errors. However, if you have attempted to submit a UCF with errors and did not immediately correct those errors and submit the record, you have 30 days to make updates to these records in Clearinghouse.

1. To view pending or incomplete submissions, click **Manage Claim Forms** tab on the UCF Listings page.

Created at	State	Warnings	Errors	Status
01/15/2019 02:13 PM	KS	0	0	✓
01/17/2019 07:38 PM	KS	0	0	✓
01/28/2019 03:51 PM	CR	0	0	✓
01/28/2019 04:04 PM	CR	0	0	✓
01/28/2019 04:07 PM	CR	0	0	✓

The **Pending Claim Forms** page is displayed.

Created At	Created By	Last Updated By	State	Action
06/10/2019 5:51 PM	rweaver@appriss.com	rweaver@appriss.com	AK	Edit Delete

2. Click **Edit** next to the form you wish to update.

Note: If it has been longer than 30 days, the **Edit** option will not be available. You must click **Delete** to delete the record and start over.

The **Edit Universal Claim Form** page is displayed.

The screenshot shows the 'Edit Universal Claim Form' page. At the top, there is a green 'Submit Now' button. Below it, a message states: 'You may submit this form at any time. This claim form is not completely processed until submitted. Please review and edit the form, or click "Submit Now" to process the form.' The form is divided into two sections: 'PMP' and 'Patient'. The 'PMP' section has a dropdown menu for 'Pmp ...' with 'Kansas' selected. The 'Patient' section has a checkbox for 'Patient Animal' and two text input fields for 'First Name*' and 'Last Name*'. A legend indicates that an asterisk (*) denotes a required field.

3. Make the necessary corrections or changes, and then click **Submit Now**, located at the top of the page.

A message is displayed prompting you to confirm the data submission.

A confirmation dialog box is displayed. It contains the text 'pmpclearinghouse.net says' and 'Are you sure you are ready to submit?'. At the bottom right, there are two buttons: 'OK' (blue) and 'Cancel' (white).

4. Click **OK**.

Your data will be validated upon submission. If there are any remaining errors on the UCF form, they are displayed at the top of the page.

The screenshot shows the 'Edit Universal Claim Form' page with validation errors. A red error message box at the bottom states: 'Form has errors and was unable to be submitted.' followed by two bullet points: 'o Drug Segment is invalid' and 'o Date of Birth can't be blank'. The rest of the page, including the 'Submit Now' button and the form fields, is visible in the background.

Note: If there are no errors, you are returned to the Submitted Claim Forms page and your report is listed there.

5. Correct the indicated errors, then repeat steps 3-4.
6. Once your data has been successfully submitted, your report is listed on the **UCF Listings** page.

6.3 Error Correction Page

6.3.1 View Records with Errors

The Error Correction page displays more information about the records within a selected data file that need correcting, including **Prescription Number**, **Segment Type**, **Warning Count**, and **Error Count**. To access this page, click the **"Pending Dispensation Error"** message in the **Status** column of the [File Listings](#) page.

The **Correct** button, located at the end of each row, allows you to make corrections to the record.

6.3.2 Error Correction via PMP Clearinghouse

Note: If you do not have a Clearinghouse account, please refer to RxManagement located in [K-TRACS](#). Alternatively, you can create an AWARe account via [K-TRACS](#).

6.3.3 Error Correction via File Submission

The ASAP 4.2B standard requires a pharmacy to select an indicator in the **DSP01** (Reporting Status) field. These indicators allow you to submit new records, revise and resubmit records, and void (delete) erroneous records. These actions are indicated by supplying one of the following values in the **DSP01** field:

- **00 New Record** – indicates a new record
- **01 Revise** – indicates that one or more data elements in a previously-submitted record have been revised
- **02 Void** – indicates that the original record should be removed

6.3.4 Error Correction via AWARe (K-TRACS)

Pharmacists in Charge (PICs) are responsible for correcting outstanding errors for their pharmacies. PICs will receive notification emails from no-reply@kansas.PMPAWARE.net regarding outstanding errors. K.A.R. 68-21-2 (i) indicates each dispenser shall correct any reporting error within seven

days of discovering the error or being notified of the error by the Board or the Board's designee.

To correct errors, PICs should perform the following steps:

1. Log into their K-TRACS account.
2. Navigate to **Menu > Rx Management**.

Note: If the Rx Management or Rx Maintenance options are not available, the user will not be able to correct errors within PMP AWARxE. If this occurs, the user should redirect to PMP Clearinghouse to correct any errors.

The screenshot shows the 'Rx Error List' interface within the PMP AWARxE system. The top navigation bar includes 'Menu', 'Admin', and 'System Admin'. Below this, a breadcrumb trail reads 'Data > Rx Management > Error Correction'. A 'Support Menu' link is visible in the top right. The main content area features a tabbed interface with 'Error Correction' selected, alongside 'Rx Maintenance', 'New Rx', 'PharmacyRx', and 'PharmacyRx History'. A search bar with 'Advanced Options' and a 'Search' button is present. The 'Rx Error List' section displays the message 'No errors found for your selected employer identifiers.' and includes download links for 'Download PDF' and 'Download CSV'. The footer indicates the system is 'Powered By Bamboo Health PMP AWARxE' and includes a copyright notice for 2023 and a 'Privacy Policy' link.

3. All outstanding errors for the pharmacy will be listed.
4. Click on a prescription number to view the prescription record containing the error.
5. Correct the information highlighted in red and submit the record.

7 Email Reports

Email status reports are automatically sent to all users associated with a specific data submitter account. These reports are used to identify errors in files that have been submitted and to confirm zero report submissions. This chapter describes the status reports you may receive via email. These emails will come from reply@pmpclearinghouse.net. This email address should be whitelisted to ensure the data submitter is receiving status reports.

7.1 File Failed Report

You will receive the *File Failed Report* if a submitted file was not able to be parsed and was not processed into PMP Clearinghouse. The report contains a description of the error encountered within the file. In the event of a failed file, a new file should be submitted with the necessary corrections.

Note: Failed files are not parsed into Clearinghouse and do not require a voided ASAP file to remove it from the system.

An example *File Failed Report* is provided below.

SUBJ: Kansas ASAP file: fake-test3.txt - Parse Failure

BODY:

Error Message

Failed to decode the value '04' for the bean id 'transactionControlType'.

Summary:

- * File Name: fake-test3.txt
- * ASAP Version: 4.2B
- * Transaction Control Number: unparseable
- * Transaction Control Type: unparseable
- * Date of Submission: August 20, 2022

NOTE: This file could not be received into the system because the system could not recognize its content as a valid ASAP format. Action is required to resolve the issues and a subsequent file should be submitted. As such the information provided in this report is "best effort" and any information we could not parse is listed as "unparseable" in the fields above.

7.2 File Status Report

The *File Status Report* serves as notification that a data file is currently being parsed by the PMP system.

This report identifies specific records in the submitted data file and returns identifying information about the record, including specific errors identified during the validation process. It uses fixed-width columns and contains a summary section after the error listings. Each column contains a blank two-digit pad at the end of the data.

The columns are set to the following lengths:

Column	Length
DEA	11 (9 + pad)
NCPDP	9 (7 + pad)
NPI	12 (10 + pad)
Prescription	27 (25 + pad)
Filled	10 (8 + pad)
Segment	18 (16 + pad)
Field	18 (16 + pad)
Type	9 (7 + pad)
Message	Arbitrary

The *File Status Report* notifies you of the following scenarios:

- **Total records:** The total number of records contained in the submitted data file.
- **Duplicate records:** The number of records that were identified as already existing within the PMP system. Duplicate records are not imported to prevent improper patient information.
- **Records in process:** The number of records remaining to be processed into the system (usually only displays a number if the file has not finished loading at the time the report is sent out).

***Note:** Records remaining to be processed will continue to be processed even after the status report is sent.*

- **Records with errors:** The number of records that contain errors. These errors must be corrected for the record to be imported into the system. If a zero (0) is displayed, there are no errors in the data. Please refer to [Error Correction](#) for instructions on correcting errors.
- **Records with warnings:** The number of records that contain warnings. These warnings do not need to be corrected for the record to be imported into the system. If a zero (0) is displayed, there are no warnings in the data.
- **Records imported with warnings:** The number of records with warnings that were imported. If a record contains both warnings and errors, the errors must be corrected to be submitted to the system. Please refer to [Error Correction](#) for instructions on correcting errors.

- **Records imported without warnings:** The number of records without warnings that were imported.

Note: *The initial File Status Report is sent out two (2) hours after the file has been submitted to the system. Additional reports will be sent out every 24 hours if errors continue to be identified within a submitted data file.*

An example *File Status Report* is provided on the following page.

SUBJ: Kansas ASAP file: fake-test3.txt - Status Report

BODY:

DEA	NCPDP	NPI	Prescription	Filled	Segment	Field	Type	Message
BE1234567	1347347	9034618394	123486379596-0	20220829	Dispensation	refill_number	WARNING	message example

Summary:

- * File Name: fake-test3.txt
- * ASAP Version: 4.2B
- * Transaction Control Number: 23489504823
- * Transaction Control Type: send
- * Date of Submission: August 30, 2022
- * Total Record Count: ###
- * Duplicate Records: ###
- * In Process Count: ###
- * Records with Error Count: ###
- * Imported Records Count: ###
- * Records Imported with Warning Count: ###

7.3 Zero Report Confirmation

You will receive a *Zero Report Confirmation* after successfully submitting a zero report to PMP Clearinghouse. This report displays the PMP to which the zero report was submitted, date range for the zero report, date the zero report was submitted to PMP Clearinghouse, and date the report was originally created.

An example *Zero Report Confirmation* is provided below.

SUBJ: ASAP Zero Report: zero_reports_20220306KSMCPS.DAT

BODY:

Summary:

- * File Name: zero_reports_20220306KSMCPS.DAT
- * PMP Name: Kansas
- * Date Range: 2022-03-06 - 2022-03-06
- * Submission Date: 2022-03-07
- * ASAP Creation Date: 2022-03-07

8 Managing Your Upload Account

The **Account** menu option allows you to manage the information associated with your organization's upload account, including adding users, PMPs, and SFTP access to your account as well as editing your organization's account information.

Note: This chapter contains information for managing the upload account with which your user account is associated. For information about editing and managing your individual user account, including how to change your password, please refer to [Managing Your User Profile](#).

8.1 Adding Users to Your Upload Account

PMP Clearinghouse allows data submitters to add new users to the system who have the same rights and access to submitting data and viewing file status. This practice allows you to create an account to be used for a backup individual.

1. [Log in to PMP Clearinghouse](#).
2. Click **Account**.

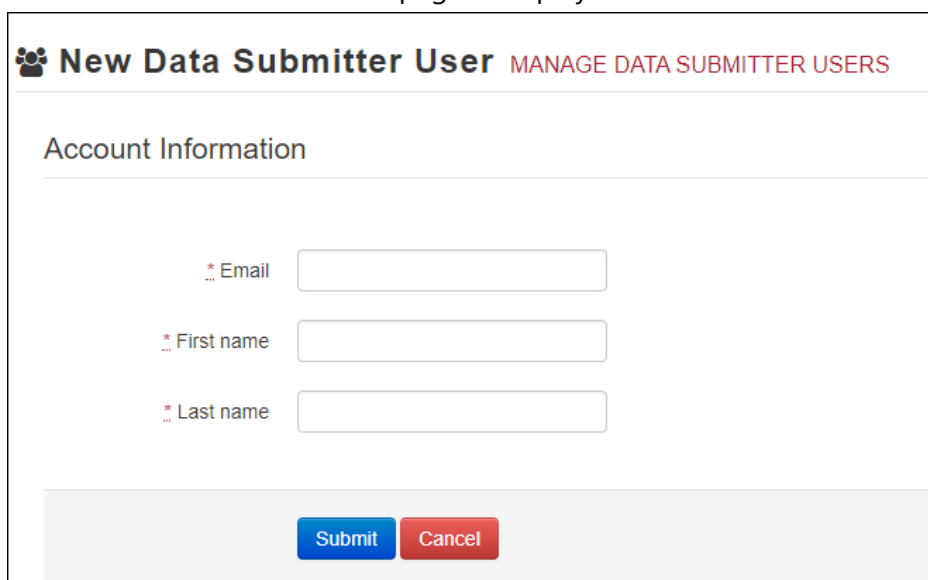

3. Select **Users** from the **Account** drop-down menu.
The Account Users page is displayed.

4. Click **New User**, located in the top right corner of the page.

The New Data Submitter User page is displayed.

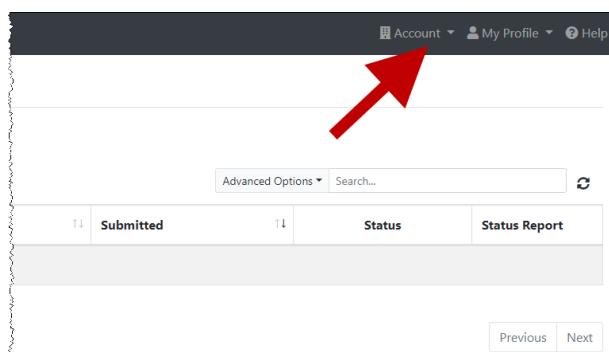

5. Enter the new data submitter's email address, first name, and last name in the appropriate fields. *Note that all fields are required.*
6. Click **Submit**.

The user is added to the list of data submitters for your organization, and you are returned to the Account Users page.

7. Please inform the new user of the account creation.
 - a. The user will receive an email with a link for them to confirm their account.
 - b. Once the account has been confirmed, the user will need to navigate to the PMP Clearinghouse Login page and click **Forgot your password?** to create a password for their account and log in.
 - c. Upon logging in, the user will be able to view all files submitted for your organization's upload account.

8.1.1 Changing Another User's Password

1. [Log in to PMP Clearinghouse](#).
2. Click **Account**.

3. Select **Users** from the **Account** drop-down menu.

The Account Users page is displayed.

Email	First Name	Last Name	Organization Name	Phone Number	Admin Name	Admin Email
test@mc-testerton.com	Testy	McTesterton	Test Pharmacy	555-123-5555	Test User	test@mc-testerton.com
(Admin)	Test	User	Test Pharmacy	555-123-5555	Test User	test@mc-testerton.com

4. Click the **Edit** button, located to the right of the user's information.

The Edit Data Submitter User page is displayed.

Edit Data Submitter User MANAGE DATA SUBMITTER USERS

Account Information

* Email

* First name

* Last name

Password

leave it blank if you don't want to change it

Password confirmation

5. Enter a new password for the user in the **Password** field, then re-enter it in the **Password confirmation** field. The password requirements are provided below.

Passwords must contain:

- At least eight (8) characters
- One (1) uppercase letter
- One (1) lowercase letter
- One (1) number
- One (1) special character, such as !, @, #, \$, etc.

6. Click **Submit**.

The password is changed.

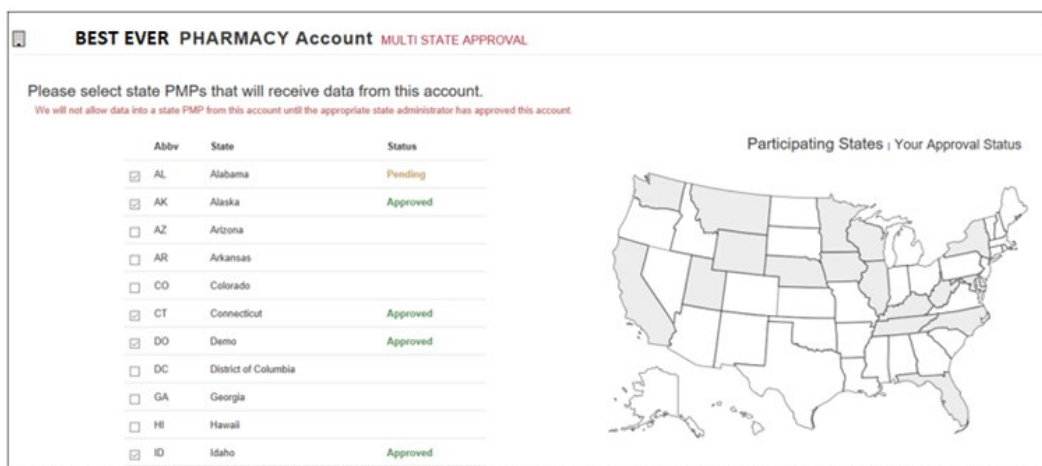

8.2 Adding PMPs to Your Upload Account

If your organization needs to submit data files to an additional PMP that uses PMP AWARxE, you can submit the request through PMP Clearinghouse.

1. [Log in to PMP Clearinghouse.](#)
2. Click **Account**.

3. Select **Multi State Approval** from the **Account** drop-down menu.
The **Multi State Approval** page is displayed. This page displays all PMPs currently using the PMP AWARxE system as well as your data sharing status with each PMP.

4. To request to submit data to another PMP, click to select the checkbox next to that PMP.

PMP Clearinghouse automatically saves your changes, and your request is submitted to the PMP administrator for review and approval. Once the request has been approved, the status for that PMP will change from "Pending" to "Approved," and you may begin submitting data to that PMP.

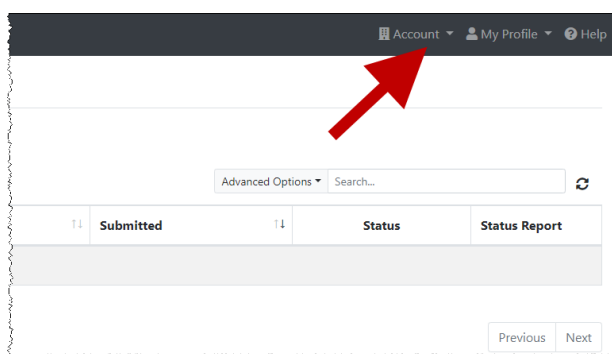

Notes:

- If you are submitting data via SFTP, the file must be located in the proper subfolder to ensure delivery to the desired PMP.
- To cancel data submission to a PMP, uncheck the box for that PMP. Note that if you need to submit data to that PMP again in the future, you will have to go through the approval process again.

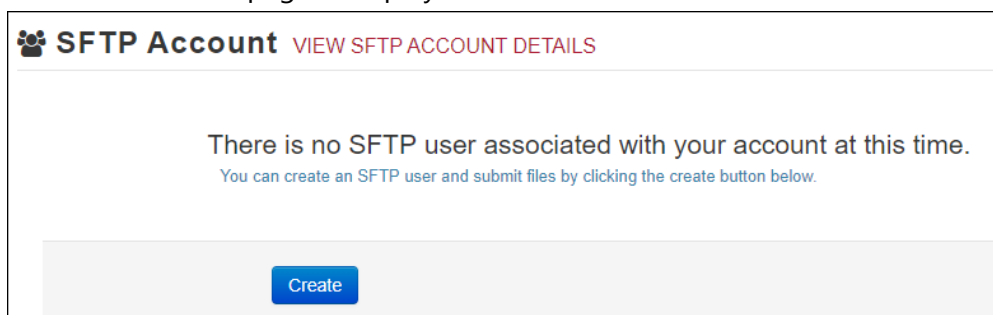

8.3 Adding SFTP Access to an Upload Account

If a registered upload account did not request an SFTP account during the account creation process, you can request one at any time using the **Account** menu option.

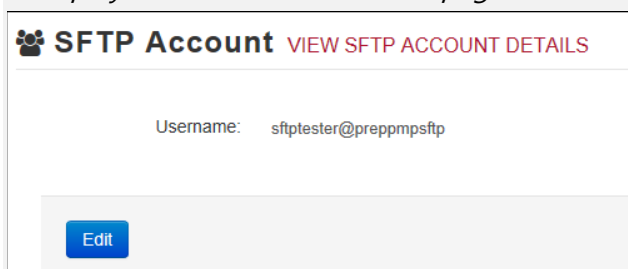

1. [Log in to PMP Clearinghouse.](#)
2. Click **Account**.

3. Select **SFTP Details**.
- The **SFTP Account** page is displayed.

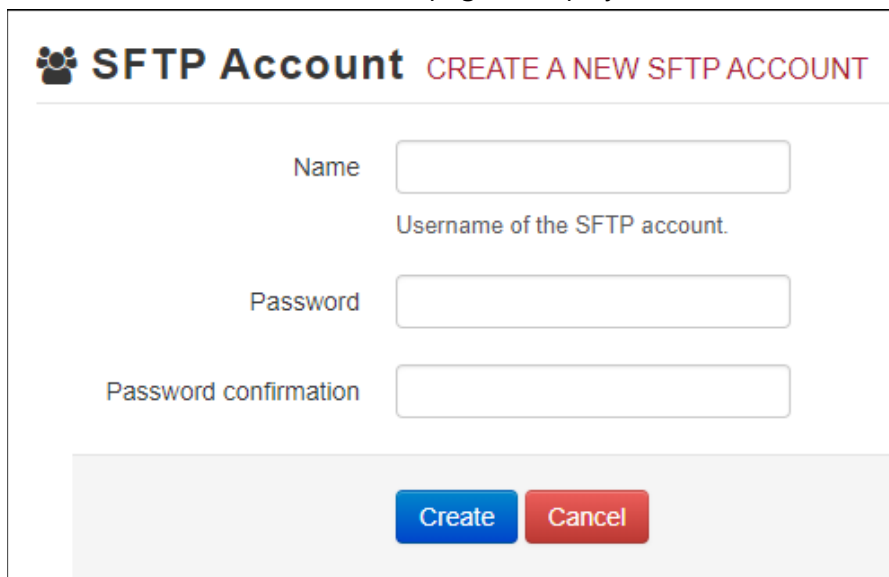

Note: If an SFTP account already exists for the upload account, the username is displayed on the **SFTP Account** page.

*You cannot change the SFTP account username; however, you can update the password by clicking **Edit**.*

4. Click **Create**.

The **Create a New SFTP Account** page is displayed.

The screenshot shows a web form titled "SFTP Account" with a sub-header "CREATE A NEW SFTP ACCOUNT". The form contains three input fields: "Name" (with a sub-label "Username of the SFTP account."), "Password", and "Password confirmation". At the bottom of the form are two buttons: "Create" (blue) and "Cancel" (red).

5. Enter a username for the account in the **Name** field.

Notes:

- *The username must contain a minimum of eight (8) characters.*
- *Once the SFTP account has been created, you cannot change the username.*

6. Enter a password for the account in the **Password** field, then re-enter it in the **Password confirmation** field. The password requirements are provided below.

Passwords must contain:

- *At least eight (8) characters*
- *One (1) uppercase letter*
- *One (1) lowercase letter*
- *One (1) number*
- *One (1) special character, such as !, @, #, \$, etc.*

Once the account has been successfully created, this password will be input into the pharmacy software so that submissions can be automated.

Notes:

- *This password can be the same as the one used when the upload account was created.*
- *Unlike your Profile password (i.e., your user account password), the SFTP password does not expire.*
- *The URL to connect via SFTP is submissions.healthcarecoordination.net.*

- Additional details on SFTP configuration can be found in [Appendix C: SFTP Configuration](#).

7. Click **Create**.

The account is created, and the username is displayed.

8.4 Editing Your Upload Account

Note: This function only allows you to edit your organization's upload account. If you need to edit your individual profile information, please refer to [Editing Your Profile](#).

1. [Log in to PMP Clearinghouse](#).
2. Click **Account**.

3. Select **Account Details**.

The **Account** page is displayed as shown on the following page.

The account information is updated.

9 Managing Your User Profile

This chapter describes how to manage your individual user profile, including how to edit your profile and manage your password.

Note: This chapter contains information for managing your individual user profile. For information about managing your organization's upload account, including how to add users, please refer to [Managing Your Upload Account](#).

9.1 Editing Your Profile

Note: This function only allows you to edit your individual profile information. If you need to edit the Organization Information, please refer to [Editing Your Upload Account](#).

1. [Log in to PMP Clearinghouse](#).
2. Click **My Profile**.

3. Select **Edit My Profile**.
- Edit Profile

Profile Details * Indicates Required Field

First name *	Last name *
<input type="text" value="Test"/>	<input type="text" value="User"/>
Email *	Time zone
<input type="text" value="testuser@email.com"/>	<input type="text" value="(GMT-05:00) Eastern Time (US & Canada)"/>
<input checked="" type="checkbox"/> Disable report emails	

Organization Information

Name: Bamboo Health Test Pharmacy
Admin: Test Admin
Admin Email: testadmin@email.com

4. Update your information as necessary, then click **Submit**.
Your changes are saved, and your updated profile is displayed.

9.2 Changing Your Password

Note: Clearinghouse passwords expire every 90 days. You can use this function to proactively change your password before it expires. If your password has already expired, or you have forgotten your password, navigate to the PMP Clearinghouse Login page and click **Forgot your password?** to reset it. Please refer to [Resetting Your Password](#) for more information.

1. [Log in to PMP Clearinghouse](#).
2. Click **My Profile**.

3. Select **Change Password**.

A screenshot of a 'Change Password' form. The title 'Change Password' is at the top. Below it is a section titled 'Profile Details' with a note '* Indicates Required Field'. The form contains the following fields: 'Email: testuser@email.com', 'Current password *' (with a red asterisk), 'Password', and 'Password confirmation'. A message 'we need your current password to confirm your changes' is displayed between the 'Current password' and 'Password' fields. At the bottom of the form are two buttons: 'Update' (in blue) and 'Cancel' (in grey).

4. Enter your current password in the **Current Password** field.
5. Enter your new password in the **Password** field, then re-enter it in the **Password confirmation** field. The password requirements are provided below.

Passwords must contain:

- At least eight (8) characters
- One (1) uppercase letter
- One (1) lowercase letter
- One (1) number
- One (1) special character, such as !, @, #, \$, etc.

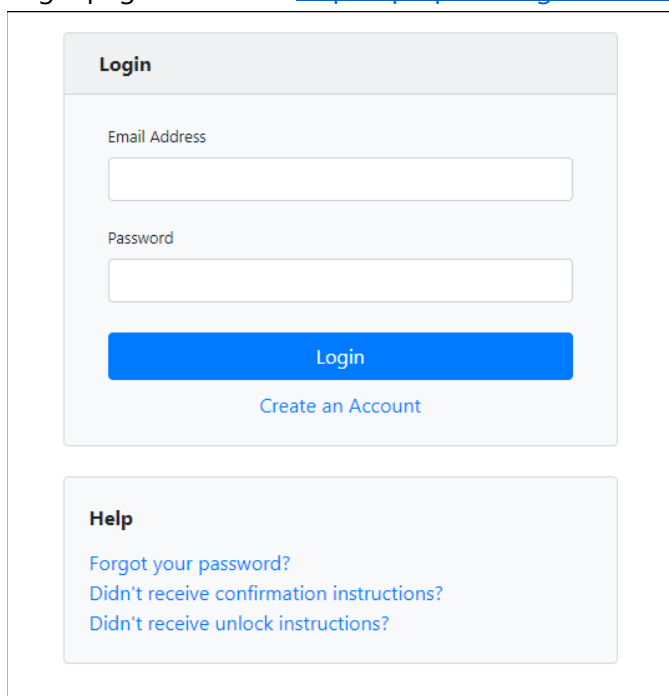

6. Click **Update**.

Your password is updated, and you will use it the next time you log in to PMP Clearinghouse.

9.3 Resetting Your Password

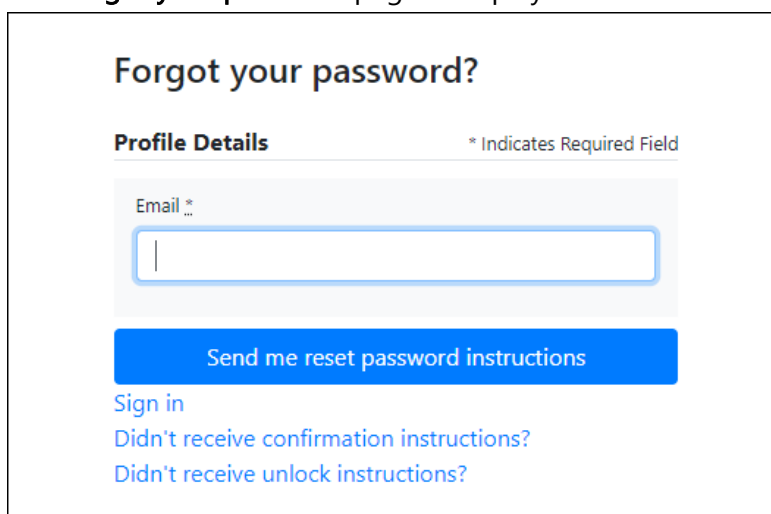

If you have forgotten your password or your password has expired, perform the following steps to reset it.

1. Open an internet browser window and navigate to the PMP Clearinghouse Login page located at https://pmpclearinghouse.net/users/sign_in.

The screenshot shows the PMP Clearinghouse Login page. It features a 'Login' section with two input fields: 'Email Address' and 'Password'. Below these fields is a blue 'Login' button and a link that says 'Create an Account'. Below the login section is a 'Help' section with three links: 'Forgot your password?', 'Didn't receive confirmation instructions?', and 'Didn't receive unlock instructions?'.

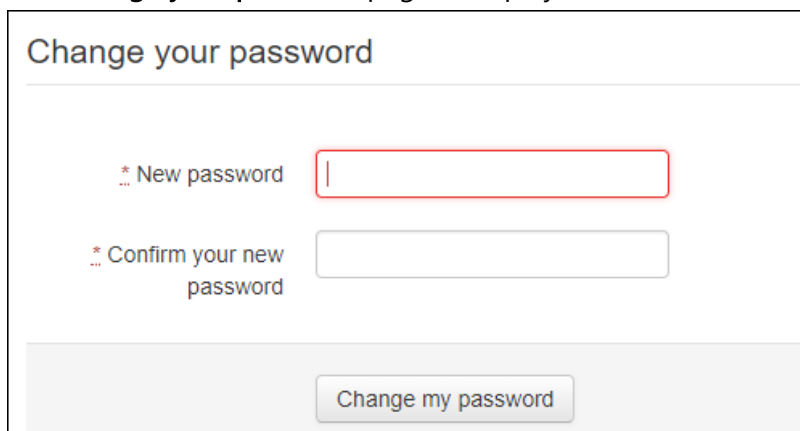

2. Click the **Forgot your password?** link, located in the Help section of the page. The **Forgot your password** page is displayed.

The screenshot shows the 'Forgot your password?' page. It has a title 'Forgot your password?' and a subtitle 'Profile Details' with a note '* Indicates Required Field'. There is an 'Email *' input field. Below the input field is a blue button that says 'Send me reset password instructions'. At the bottom, there are three links: 'Sign in', 'Didn't receive confirmation instructions?', and 'Didn't receive unlock instructions?'.

3. Enter the email address associated with your user account, then click **Send me reset password instructions**.
4. Once you receive the reset password email, click the **Change my password** link within the email.

The **Change your password** page is displayed.

A screenshot of a web form titled "Change your password". The form has two input fields: the first is labeled "* New password" and the second is labeled "* Confirm your new password". Both fields have a red border. Below the fields is a button labeled "Change my password".

5. Enter your new password in the **New password** field, then re-enter it in the **Confirm your new password** field. The password requirements are provided below.

Passwords must contain:

- *At least eight (8) characters*
- *One (1) uppercase letter*
- *One (1) lowercase letter*
- *One (1) number*
- *One (1) special character, such as !, @, #, \$, etc.*

6. Click **Change my password**.

Your password is changed, and you can now use it to log in to PMP Clearinghouse.

10 Assistance and Support

10.1 Technical Assistance

If you need additional help with any of the procedures outlined in this guide, you can:

- Contact Bamboo Health at 1-855-544-4PMP (1-855-544-4767);
OR
- Create a support request at the following URL:
<https://pmpclearinghouse.zendesk.com/hc/en-us/>
- Technical assistance is available 24 hours per day, 7 days per week, 365 days per year.

10.2 Administrative Assistance

If you have questions regarding reporting requirements, error correction, exemptions or other questions, please contact:

Kansas Prescription Monitoring Program
Kansas Board of Pharmacy
800 SW Jackson, Suite 1414
Topeka, KS 66612-1231

Phone: 785-296-6547

Fax: 785-296-8420

E-mail: pmpadmin@ks.gov

11 Document Information

11.1 Disclaimer

Bamboo Health has made every effort to ensure the accuracy of the information in this document at the time of printing. However, information is subject to change.

11.2 Change Log

Version	Date	Chapter/Section	Change Made
1.0		N/A	Initial publication
2.0	05/15/2019	Global	Updated to current document template
2.1	02/13/2020	Global	Updated screenshots to reflect updated user interface (note that this is only a cosmetic change; no functionality changes are included)
		5.4/Zero Reports	Separated into two sections (Submit a Single-Click Zero Report and Create a New Zero Report) to reflect the addition of the single-click zero report submission functionality
		5.4.1/Submit a Single-Click Zero Report	Added new section with instructions for submitting a single-click zero report
3.0	04/26/2022	Global	Updated guide to reflect Bamboo Health branding
3.1	06/01/2022	2/Data Collection and Tracking	Revised definitions and requirements per state statute
3.2	11/08/2022	Appendix B: ASAP 4.2B Specifications	Added new appendix as the state would like to utilize both 4.1 and 4.2B ASAP Specifications
4.0	04/03/2023	General	Removed all references of ASAP 4.1 Reporting Requirements
4.1	06/22/2023	Appendix A/ASAP 4.2B Specifications	Updated PAT02 to include 09 Vendor-Specific ID code

Appendix A: ASAP 4.2B Specifications

The information on the following pages contains the definitions for the specific contents required of uploaded records in the American Society for Automation in Pharmacy (ASAP) format to comply with the KS PMP requirements.

The following elements are used in each upload file:

- **Segment Identifier** – indicates the beginning of a new segment, for example, *PHA*.
- **Data Delimiter** – character used to separate segments and the data elements within a segment, for example, an asterisk (*).

Each completed field should be followed by an asterisk, and each blank field should contain a single asterisk.

If the last field in the segment is blank, it should contain an asterisk and a tilde (~).

- **Segment Terminator** – character used to mark the end of a segment, for example, the tilde (~).

Note: Field TH09 in the Transaction Header segment contains a built-in segment terminator. Since TH09 also signifies the end of the segment, it should contain two tildes (~~).

- **Requirement**
 - R = Required by ASAP
 - N = Not Used
 - RK = Required by K-TRACS
 - S = Situational

Note: For more information, contact the American Society for Automation in Pharmacy for the full Implementation Guide for the ASAP Standard for Prescription-Monitoring Programs. That guide includes field lengths, acceptable attributes, and examples.

Segment	Element ID	Element Name	Requirement	Notes
TH: Transaction Header (required)				
Used to indicate the start of a transaction. It also assigns the data element separator, segment terminator, and control number.				
	TH01	Version/Release Number Code uniquely identifying the transaction. Format = xx.x	R	
	TH02	Transaction Control Number Sender assigned code uniquely identifying a transaction.	R	
	TH03	Transaction Type Identifies the purpose of initiating the transaction. <ul style="list-style-type: none"> • 01 Send/Request Transaction • 02 Acknowledgement (used in Response only) • 03 Error Receiving (used in Response only) • 04 Void (used to void a specific Rx in a real-time transmission or an entire batch that has been transmitted) 	N	
	TH04	Response ID Contains the Transaction Control Number of a transaction that initiated the transaction. Required in response transaction only.	N	
	TH05	Creation Date Date the transaction was created. Format: CCYYMMDD.	R	
	TH06	Creation Time Time the transaction was created. Format: HHMMSS or HHMM.	R	
	TH07	File Type <ul style="list-style-type: none"> • P = Production • T = Test 	R	
	TH08	Routing Number Reserved for real-time transmissions that go through a network switch to indicate, if necessary, the specific PMP the transaction should be routed to.	N	

Segment	Element ID	Element Name	Requirement	Notes
	TH09	Segment Terminator Character This terminates the TH segment and sets the actual value of the data segment terminator for the entire transaction.	R	
IS: Information Source (required) Used to convey the name and identification numbers of the entity supplying the information.				
	IS01	Unique Information Source ID Reference number or identification number. (Example: phone number)	R	
	IS02	Information Source Entity Name Entity name of the Information Source.	R	
	IS03	Message Free-form text message.	N	
PHA: Pharmacy Header (required) Used to identify the pharmacy. Note: It is required that information be provided in at least one of the following fields: PHA01, PHA02, or PHA03.				
	PHA01	National Provider Identifier (NPI) Identifier assigned to the pharmacy by CMS.	S	Required if pharmacy does not have a DEA
	PHA02	NCPDP/NABP Provider ID Identifier assigned to pharmacy by the National Council for Prescription Drug Programs.	N	
	PHA03	DEA Number Identifier assigned to the pharmacy by the Drug Enforcement Administration.	RK	
	PHA04	Pharmacy Name Free-form name of the pharmacy or dispensing practitioner.	RK	
	PHA05	Address Information – 1 Free-form text for address information.	N	
	PHA06	Address Information – 2 Free-form text for address information.	N	
	PHA07	City Address Free-form text for city name.	N	

Segment	Element ID	Element Name	Requirement	Notes
	PHA08	State Address U.S. Postal Service state code.	N	
	PHA09	ZIP Code Address U.S. Postal Service ZIP Code. Do not include hyphens.	N	
	PHA10	Phone Number Complete phone number including area code. Do not include hyphens.	N	
	PHA11	Contact Name Free-form name.	N	
	PHA12	Chain Site ID Store number assigned by the chain to the pharmacy location. Used when the PMP needs to identify the specific pharmacy from which information is required.	N	
	PHA13	Pharmacy's Permit Number/License Number Identification assigned to the Pharmacy by the Kansas Board of Pharmacy. To be utilized only when the pharmacy does not have an NPI number or DEA number. In this instance, leave PHA01 and PHA03 blank and insert the Pharmacy's Kansas permit number in PHA13 (e.g., XX-XXXXX).	S	Required if the pharmacy does not have a DEA or NPI, submit the Kansas registration number
PAT: Patient Information (required)				
Used to report the patient's name and basic information as contained in the pharmacy record.				
	PAT01	ID Qualifier of Patient Identifier Code identifying the jurisdiction that issues the ID in PAT03.	N	
	PAT02	ID Qualifier Code to identify the type of ID in PAT03. If PAT02 is used, PAT03 is required. <ul style="list-style-type: none"> • 01 Military ID • 02 State Issued ID • 03 Unique System ID • 04 Permanent Resident Card (Green Card) • 05 Passport ID • 06 Driver's License ID • 08 Tribal ID • 09 Vendor-Specific ID • 99 Other (agreed upon ID) 	R	

Segment	Element ID	Element Name	Requirement	Notes
	PAT03	ID of Patient Identification number for the patient as indicated in PAT02. K.A.R. 68-21-1: Patient identification number means that patient's unexpired temporary or permanent driver's license number, state-issued identification card number, or pharmacy system-generated identification number. If the patient does not have one of those numbers, the dispenser shall use the patient's first, middle and last initials, followed by the patient's eight-digit birth date. The patient identification number shall not include a social security number.	RK	
	PAT04	ID Qualifier of Additional Patient Identifier Code identifying the jurisdiction that issues the ID in PAT06. Used if the PMP requires such identification.	N	
	PAT05	Additional Patient ID Qualifier Code to identify the type of ID in PAT06 if the PMP requires a second identifier. If PAT05 is used, PAT06 is required. <ul style="list-style-type: none"> • 01 Military ID • 02 State Issued ID • 03 Unique System ID • 04 Permanent Resident Card (Green Card) • 05 Passport ID • 06 Driver's License ID • 07 Social Security Number • 08 Tribal ID • 09 Vendor Specific (such as Bamboo Health, Experian, LexisNexis) • 10 Veterinary Patient Microchip Number • 99 Other (agreed upon ID) 	N	
	PAT06	Additional ID Identification that might be required by the PMP to further identify the individual. An example might be that in PAT03 driver's license is required and in PAT06 Social Security number is also required.	N	

Segment	Element ID	Element Name	Requirement	Notes
	PAT07	Last Name Patient's last name.	RK	
	PAT08	First Name Patient's first name.	RK	
	PAT09	Middle Name Patient's middle name or initial if available.	N	
	PAT10	Name Prefix Patient's name prefix such as <i>Mr.</i> or <i>Dr.</i>	N	
	PAT11	Name Suffix Patient's name suffix such as <i>Jr.</i> or <i>the III.</i>	N	
	PAT12	Address Information – 1 Free-form text for street address information. K.S.A. 65-1626: Address means, with respect to prescriptions, the physical address where a patient resides, including street address, city and state.	RK	
	PAT13	Address Information – 2 Free-form text for additional address information.	N	
	PAT14	City Address Free-form text for city name.	RK	
	PAT15	State Address U.S. Postal Service state or other regional jurisdictional code	RK	
	PAT16	ZIP Code Address U.S. Postal Service ZIP code. Do not include hyphens. <i>Note: Populate with zeros if patient address is outside the U.S.</i>	RK	
	PAT17	Phone Number Complete phone number including area code. Do not include hyphens.	N	
	PAT18	Date of Birth Date patient was born. Format: CCYYMMDD	RK	

Segment	Element ID	Element Name	Requirement	Notes
	PAT19	Gender Code Code indicating the sex of the patient. <ul style="list-style-type: none"> • F Female • M Male • U Unknown 	N	
	PAT20	Species Code Used if required by the PMP to differentiate a prescription for an individual from one prescribed for an animal. <ul style="list-style-type: none"> • 01 Human • 02 Veterinary Patient 	RK	
	PAT21	Patient Location Code Code indicating where patient is located when receiving pharmacy services. <ul style="list-style-type: none"> • 01 Home • 02 Intermediary Care • 03 Nursing Home • 04 Long-Term/Extended Care • 05 Rest Home • 06 Boarding Home • 07 Skilled-Care Facility • 08 Sub-Acute Care Facility • 09 Acute Care Facility • 10 Outpatient • 11 Hospice • 98 Unknown • 99 Other 	N	
	PAT22	Country of Non-U.S. Resident Used when the patient's address is a foreign country.	N	
	PAT23	Name of Animal Used if required by the PMP for prescriptions written by a veterinarian and the pharmacist has access to this information at the time of dispensing the prescription.	S	Required if the prescription is for an animal as indicated in PAT20

DSP: Dispensing Record (required)				
Used to identify the basic components of a dispensing of a given prescription order including the date and quantity.				
	DSP01	Reporting Status DSP01 requires one of the following codes, and an empty or blank field no longer indicates a new prescription transaction: <ul style="list-style-type: none"> • 00 New Record (indicates a new prescription dispensing transaction) • 01 Revise (indicates that one or more data element values in a previously submitted transaction are being revised) • 02 Void (message to the PMP to remove the original prescription transaction from its data, or to mark the record as invalid or to be ignored). *Note: For prescriptions voided with code "02", a limited data set is being offered as an option PMPs can elect to use rather than requiring the entire prescription to be voided. This option is offered in order to streamline the process in the pharmacy when voiding a prescription.	R	
	DSP02	Prescription Number Serial number assigned to the prescription by the pharmacy.	RK	
	DSP03	Date Written Date the prescription was written (authorized). Format: CCYYMMDD	RK	
	DSP04	Refills Authorized The number of refills authorized by the prescriber.	R	
	DSP05	Date Filled Date prescription was prepared. Format: CCYYMMDD	RK	
	DSP06	Fill Number Number of the fill of the prescription. 0 indicates New Rx; 01-99 is the fill number.	RK	
	DSP07	Product ID Qualifier Used to identify the type of product ID contained in DSP08. <ul style="list-style-type: none"> • 01 NDC • 06 Compound 	R	

	DSP08	Product ID Full product identification as indicated in DSP07, including leading zeros without punctuation. If code "06" (indicating a compound) is indicated in DSP07, use "99999" as the first 5 characters; CDI then becomes required	RK	
	DSP09	Quantity Dispensed Number of metric units dispensed in metric decimal format. Example: 2.5 Note: For compounds show the first quantity in CDI04.	RK	
	DSP10	Days' Supply Estimated number of days the medication will last.	RK	
	DSP11	Drug Dosage Units Code Identifies the unit of measure for the quantity dispensed in DSP09. <ul style="list-style-type: none">• 01 Each• 02 Milliliters (ml)• 03 Grams (gm)	N	
	DSP12	Transmission Form of Rx Origin Code Code indicating how the pharmacy received the prescription. <ul style="list-style-type: none">• 01 Written Prescription• 02 Telephone Prescription• 03 Telephone Emergency Prescription• 04 Fax Prescription• 05 Electronic Prescription• 06 Transfer/Forwarded• 99 Other	N	
	DSP13	Partial Fill Indicator Used when the quantity in DSP09 is less than the metric quantity per dispensing authorized by the prescriber. This dispensing activity is often referred to as a split filling. <ul style="list-style-type: none">• 00 Not a Partial Fill• 01 First Partial Fill Note: For additional fills per prescription, increment by 1. So, the second partial fill would be reported as 02, up to a maximum of 99.	N	

	DSP14	Pharmacist National Provider Identifier (NPI) Identifier assigned to the pharmacist by CMS. This number can be used to identify the pharmacist dispensing the medication.	N	
	DSP15	Pharmacist State License Number This data element can be used to identify the pharmacist dispensing the medication. Assigned to the pharmacist by the Licensing Board.	N	
	DSP16	Classification Code for Payment Type Code identifying the type of payment (i.e., how it was paid for). <ul style="list-style-type: none">• 01 Private Pay• 02 Medicaid• 03 Medicare• 04 Commercial Insurance• 05 Military Installations and VA• 06 Workers' Compensation• 07 Indian Nations• 99 Other	RK	
	DSP17	Date Sold Used to determine the date the prescription left the pharmacy, not the date it was filled, if the dates differ. Format: CCYYMMDD <i>Note: The sold date should reflect the date the prescription was sold to the patient or patient representative; the date the prescription was mailed or sent out for delivery; and/or the date the prescription was dispensed from a hospital to the patient or patient representative.</i>	RK	
	DSP18	RxNorm Code Qualifier RxNorm Code is the DrugDBCodeQualifier in the XML format of the SCRIPT transaction. <ul style="list-style-type: none">• 01 Semantic Clinical Drug (SCD)• 02 Semantic Branded Drug (SBD)• 03 Generic Package (GPCK)• 04 Branded Package (BPCK)	N	
	DSP19	RxNorm Code Used for electronic prescriptions to capture the prescribed drug product identification.	N	

	DSP20	Electronic Prescription Reference Number This field should be populated with the MessageID in the XML format of the SCRIPT transaction.	N	
	DSP21	Electronic Prescription Order Number This field should be populated with the PrescriberOrderNumber in the XML format of the SCRIPT standard.	N	
	DSP22	Quantity Prescribed This field adds clarity to the value reported in DSP13, Partial Fill Indicator.	N	
	DSP23	Rx SIG This field captures the actual directions printed on the prescription vial label.	N	
	DSP24	Treatment Type This field is used to explain the reason for an opioid prescription. If the prescription is not for an opioid, this field should not be used. <ul style="list-style-type: none"> • 01 Not used for opioid dependency treatment • 02 Used for opioid dependency treatment • 03 Pain associated with active and aftercare cancer treatment • 04 Palliative care in conjunction with a serious illness • 05 End-of-life and hospice care • 06 A pregnant individual with a pre-existing prescription for opioids • 07 Acute pain for an individual with an existing opioid prescription for chronic pain • 08 Individuals pursuing an active taper of opioid medications • 09 Patient is participating in a pain management contract • 10 Acute Opioid Therapy • 11 Chronic Opioid Therapy • 99 Other (trading partner agreed upon reason) <i>*Note: Codes 03-11 not required.</i>	N	

	DSP25	Diagnosis Code This field is used to report the ICD-10 code or CDT. If required by a PMP, this field would be populated only when the ICD-10 or CDT code is available. Exclude the decimal point when reporting this field.	N	
PRE: Prescriber Information (required) Used to identify the prescriber of the prescription.				
	PRE01	National Provider Identifier (NPI) Identifier assigned to the prescriber by CMS.	S	Required if the prescriber does not have a DEA
	PRE02	DEA Number Identifying number assigned to a prescriber or an institution by the Drug Enforcement Administration (DEA). For prescribers or reportable drugs that have no DEA number, another identifier, such as their NPI or Prescriber License Number must be submitted. Note: This field is required when the prescription is a controlled substance, based on either federal or other more local regulation.	RK	
	PRE03	DEA Number Suffix Identifying number assigned to a prescriber by an institution when the institution's number is used as the DEA number.	N	If the DEA a prescriber uses (e.g., resident or intern) is a hospital facility ID, submit the DEA suffix.
	PRE04	Prescriber License Number Identification assigned to the prescriber by the Licensing Board. To be utilized for non-controlled substances (e.g., gabapentin) only when the prescriber does not have an NPI number or DEA number (e.g., veterinarian). In this instance, leave PRE01 and PRE02 blank and insert the prescriber's Kansas state license number in PRE04. Note: This field can be used for veterinary prescriptions.	S	Required if the prescriber does not have a DEA or NPI
	PRE05	Last Name Prescriber's last name.	RK	

	PRE06	First Name Prescriber's first name.	RK	
	PRE07	Middle Name Prescriber's middle name or initial.	N	
	PRE08	Phone Number Complete phone number including area code. Do not include hyphens.	N	
	PRE09	XDEA Number This field is in addition to Treatment Type in the DSP segment. This gives PMPs the option to require the XDEA Number (NADEAN) in the PRE segment.	N	
	PRE10	Jurisdiction or State Issuing Prescriber License Number Use this field to further identify the information provided in PRE04.	N	
CDI: Compound Drug Ingredient Detail (situational) Use of this segment is required when medication dispensed is a compound and one of the ingredients is a PMP reporting drug. If more than one ingredient is for a prescription monitoring program reporting drug, then this would be incremented by one for each compound ingredient being reported. If CDI is filled in, the NDC of DSP08 must be 9999999999.				
	CDI01	Compound Drug Ingredient Sequence Number First reportable ingredient is 1; each additional reportable ingredient is incremented by 1.	R	
	CDI02	Product ID Qualifier Code to identify the type of product ID contained in CDI03. • 01 NDC	R	
	CDI03	Product ID Full product identification as indicated in CDI02, including leading zeros without punctuation.	R	
	CDI04	Compound Ingredient Quantity Metric decimal quantity of the ingredient identified in CDI03. Example: 2.5	R	

	CDI05	Compound Drug Dosage Units Code Identifies the unit of measure for the quantity dispensed in CDI04. <ul style="list-style-type: none"> 01 Each (used to report as package) 02 Milliliters (ml) (for liters, adjust to the decimal milliliter equivalent) 03 Grams (gm) (for milligrams, adjust to the decimal gram equivalent) 	N	
AIR: Additional Information Reporting (situational) Used when state-issued serialized Rx pads are used, the PMP requires information on the person dropping off or picking up the prescription, or for data elements not included in other detail segments. Note: If this segment is used, at least one of the data elements (fields) will be required.				
	AIR01	State Issuing Rx Serial Number U.S.P.S. code of state that issued serialized prescription blank. This is required if AIR02 is used.	N	
	AIR02	State Issued Rx Serial Number Number assigned to state issued serialized prescription blank.	N	
	AIR03	Issuing Jurisdiction Code identifying the jurisdiction that issues the ID in AIR04. Used if required by the PMP and AIR04 is equal to 02 or 06.	N	
	AIR04	ID Qualifier of Person Dropping Off or Picking Up Rx Used to identify the type of ID contained in AIR05 for person dropping off or picking up the prescription. <ul style="list-style-type: none"> 01 Military ID 02 State Issued ID 03 Unique System ID 04 Permanent Resident Card (Green Card) 05 Passport ID 06 Driver's License ID 07 Social Security Number 08 Tribal ID 	N	
	AIR05	ID of Person Dropping Off or Picking Up Rx ID number of patient or person picking up or dropping off the prescription.	N	

	AIR06	Relationship of Person Dropping Off or Picking Up Rx Code indicating the relationship of the person. <ul style="list-style-type: none">• 01 Patient• 02 Parent/Legal Guardian• 03 Spouse• 04 Caregiver• 99 Other	N	
	AIR07	Last Name of Person Dropping Off or Picking Up Rx Last name of person picking up the prescription.	N	
	AIR08	First Name of Person Dropping Off or Picking Up Rx First name of person picking up the prescription.	N	
	AIR09	Last Name or Initials of Pharmacist Last name or initials of pharmacist dispensing the medication.	N	
	AIR10	First Name of Pharmacist First name of pharmacist dispensing the medication.	N	
	AIR11	Dropping Off/Picking Up Identifier Qualifier Additional qualifier for the ID contained in AIR05 <ul style="list-style-type: none">• 01 Person Dropping Off• 02 Person Picking Up• 03 Unknown/Not Applicable	N	
TP: Pharmacy Trailer (required) Used to identify the end of data for a given pharmacy and provide the count of the total number of detail segments reported for the pharmacy, including the PHA and TP segment.				
	TP01	Detail Segment Count Number of detail segments included for the pharmacy including the pharmacy header (PHA) and the pharmacy trailer (TP) segments.	R	
TT: Transaction Trailer (required) Used to indicate the end of the transaction and provide the count of the total number of segments included in the transaction.				

	TT01	Transaction Control Number Identifying control number that must be unique. Assigned by the originator of the transaction. Must match the number in TH02.	R	
	TT02	Segment Count Total number of segments included in the transaction including the header and trailer segments.	R	

Appendix B: ASAP Zero Report Specifications

The following table contains the required definitions for submitting zero reports via SFTP or manual upload to K-TRACS. It lists the **Segment** and **Element ID** with pre-populated data to be used as an example for constructing a zero report. For more details regarding these Segment or Elements IDs, or for details on reporting actual dispensations, please refer to [Appendix B: ASAP 4.2B Specifications](#).

Segment	Element ID	Element Name	Requirement
TH: Transaction Header (required)			
	TH01	4.2B	R
	TH02	123456	R
	TH05	20220401	R
	TH06	223000	R
	TH07	P	R
	TH09	\\	R
IS: Information Source (required)			
	IS01	7705555555	R
	IS02	PHARMACY NAME	R
	IS03	Date Range of Report #YYYYMMDD#-#YYYYMMDD#	R
PHA: Pharmacy Header (required)			
	PHA03	ZZ1234567	R
PAT: Patient Information (required)			
	PAT07	REPORT	R
	PAT08	ZERO	R
DSP: Dispensing Record (required)			
	DSP05	20220401	R
PRE: Prescriber Information (required; can be null as follows: PRE*****\)			
CDI: Compound Drug Ingredient Detail			
AIR: Additional Information Reporting			
TP: Pharmacy Trailer (required)			
	TP01	7	R
TT: Transaction Trailer (required)			
	TT01	123456	R

	TT02	10	R

```

Appendix C: SFTP Configuration

This appendix describes the SFTP configurations required to upload your data to PMP Clearinghouse.

Note: Submitting data via SFTP requires that you have an existing PMP Clearinghouse account with SFTP access.

- If you need to create a PMP Clearinghouse account, please refer to [Creating Your Account](#). You will be able to set up your SFTP account during the account creation process.
- If you have an existing PMP Clearinghouse account but do not have SFTP access, please refer to [Adding SFTP Access to an Upload Account](#).

SFTP Connection Details

Hostname: *sftp.pmpclearinghouse.net*

Bamboo Health recommends that you use the hostname when configuring the connection rather than the IP address, as the IP address is subject to change.

Port: 22

Note: The port will always be 22.

- **Credentials:** Your SFTP account credentials (username and password) can be found within the PMP Clearinghouse website. To locate your credentials, [log in to PMP Clearinghouse](#), then click **Account** > **SFTP Details** > **Edit**.
- Your username cannot be modified; however, you can update your password.

Note: Your current SFTP password cannot be seen or recovered. If you have forgotten or lost it, you will need to create a new one. For more information on changing the SFTP password, please refer to [Adding SFTP Access to an Upload Account](#).

- Once you have established SFTP access, you can test the SFTP connection, but you will not be able to submit data to a PMP until your account has been approved by the PMP administrator.

PMP Subfolders

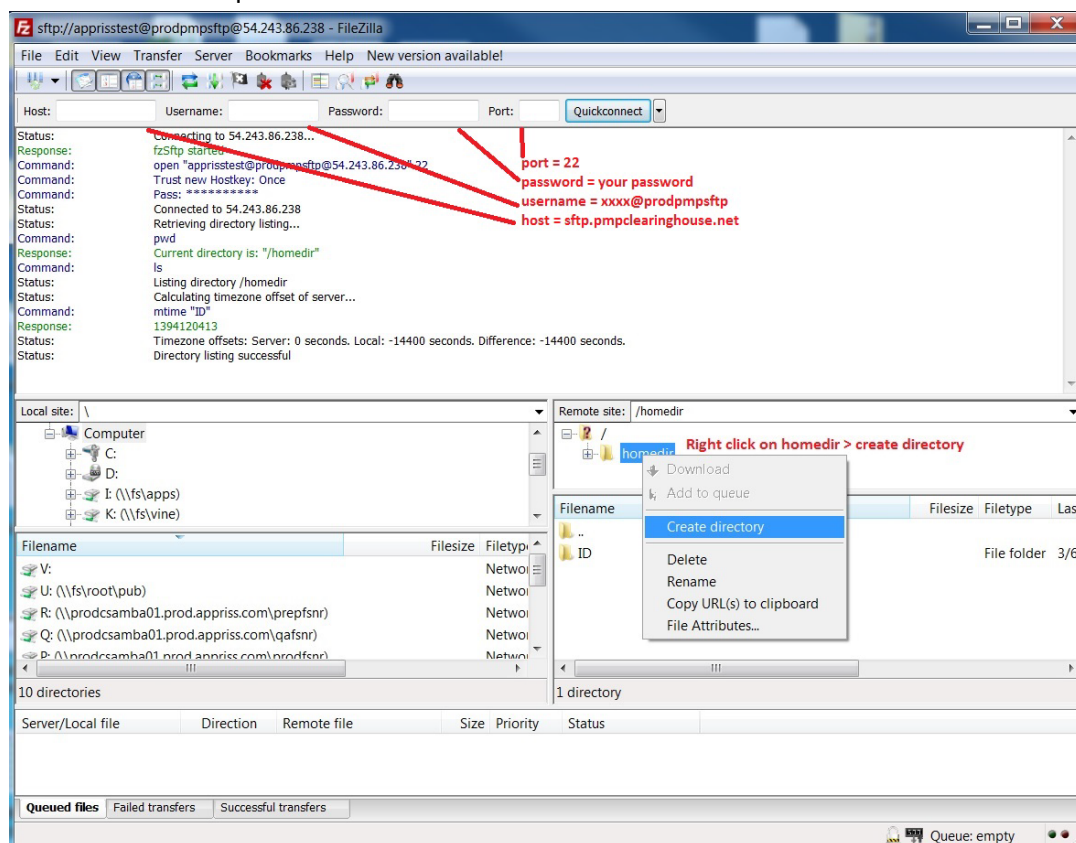

PMP Clearinghouse is the data repository for numerous PMPs. As such, data submitted via SFTP must be placed in the appropriate folder for the PMP for which you are submitting data so that it can be properly imported to that PMP. The creation of subfolders must be done outside of the PMP Clearinghouse website using third-party software, such as an SSH client or a command line utility. Files placed in the root/home directory of the SFTP server will not be imported, as this will cause the dispensing entity to appear as noncompliant/delinquent.

Your pharmacy software will need to be configured to place files in the appropriate PMP folder when submitting. You may need to contact your software vendor for additional assistance with this process.

NOTE: Capitalization of the abbreviated PMP folders' names has no bearing on whether or not Clearinghouse processes the files; however, some pharmacy systems, especially *nix-based systems, will require that the exact case is used when specifying the target folder.

There are two methods by which to create PMP subfolders for SFTP submissions:

1. **Via SSH client** (e.g., WinSCP, FileZilla, etc.)
 - a. Log in to your SFTP account.
 - b. Create the required directories under */homedir*.

2. Via command prompt

- a. Log in to your SFTP account using command prompt.
- b. Type "mkdir" followed by a space and then the PMP abbreviation you are using (e.g., *mkdir KS*).

NOTE: The PMP folder must be titled with the two-letter abbreviation as specified above.

Public (SSH/RSA) Key Authentication

PMP Clearinghouse supports SSH key authentication. The generation of the key is outside the scope of this document; however, general guidelines about the key, along with how to import/load it, are provided below.

Note: PGP Encryption is not supported.

- **Supported Key Types:**
 - SSH-2 RSA 2048-bit length
- **Unsupported Key Types:**
 - SSH-1 RSA
 - SSH-2 DSA
- **Correct Public Key Format:** If opened in a text editor, the key should look like the screenshot below.

- **Incorrect Public Key Format:** If opened in a text editor, the key SHOULD NOT look like the screenshot below.

- Once the key has been generated, it should be named "***authorized_keys***".

Notes:

- *There is no file extension.*
- *There is an underscore between the words ***authorized*** and ***keys***.*
- A `.ssh` subfolder needs to be created in the SFTP account's home directory. The "***authorized_keys***" file must be placed in the `.ssh` folder. The creation of this folder follows the same process as creating a PMP subfolder. Please refer to [PMP Subfolders](#) for steps on creating subfolders.
